The harmonisation of the financial year with the calendar year as of 31 December 2016 resulted in the presentation of comparative data which reflect the corresponding period in the 2016 calendar year. Consequently, this data does not reflect the data previously published for the first two quarters of the abbreviated 2016 financial year (Q1-Q2 2016A), but covers the first half of the 2016 calendar year.

The retail portfolio Moscow, which was presented as a discontinued operation for the first time in IMMOFINANZ's consolidated financial statements as of 31 December 2016, is also included in these new comparative figures in accordance with IFRS 5 – i.e. through the separate presentation of the retail portfolio Moscow as a discontinued operation in the consolidated income statement.

The plus and minus signs assigned to the changes reflect the business point of view: improvements are shown with a plus sign (+), deteriorations with a minus sign (-). Very high positive or negative per cent changes are reported as $\geq +100\%$ or $\leq -100\%$. The designation "not applicable" (n.a.) is used when there is a change in the sign (i.e. from plus to minus or from minus to plus) and for changes in percentage rates.

“Our achievements during the first half-year included an increase in the occupancy rate to a new high of 92.8%, a significant improvement in our credit profile, a long-term reduction in financing costs and the termination of the last historical legal disputes at the shareholders’ level.”

Oliver Schumy, CEO

Dear Shareholders,

Our activities in the operating business during the first six months of the 2017 financial year continued to focus on quality and efficiency improvements, the strengthening of ties with existing tenants and the acquisition of new tenants as well as the optimisation of our offering – and we made substantial progress in all of these areas. The occupancy rate in our standing investment portfolio (excluding Russia) rose from 89.6% at year-end 2016 to 92.8% at the end of June 2017. In our office properties, the occupancy rate increased from 87.3% to 90.1% and, at nearly 96.2%, our retail properties are essentially fully rented.

The project development business included the opening of our *Cluster Produktionstechnik* in Aachen, Germany, during May. With roughly 30,000 sqm of gross floor space, it is the largest building ensemble completed to date at the RWTH Aachen campus. The realisation of our two other major projects in that country, the *trivago-Campus* and *FLOAT*, which is leased to the German utility company Uniper, is proceeding on schedule. We also finalised the takeover of nine retail parks in Slovakia, Hungary and Romania that were acquired at the end of 2016, which now gives us a portfolio of 67 STOP SHOPS in eight countries.

The optimisation of our portfolio continued with the planned sale of the entire *Gerling Quartier* property in Cologne through two steps – during January and in July after the end of the reporting period. However, outstanding obligations from the transfer and completion of our properties in Cologne had a negative effect on second quarter earnings. This sale underscores our strategic reorientation on the office and retail sectors with our myhive, STOP SHOP and VIVO! brands. They stand for a high degree of standardisation as well as high portfolio efficiency. The *Gerling Quartier*, which is subject to extensive historical protection specifications, no longer fits with this strategy.

Our work in the financing area included an important multi-stage refinancing programme, which was carried out at the Group level in January. Both the volume and the historically high interest rates on our bonds clearly differentiated us from our competitors in the past. These latest measures – which covered a reduction in the outstanding volume of the convertible bond 2018 through an incentivised conversion and the issue of a new convertible bond with a term ending in 2024 – will reduce our financing costs by more than EUR 21 million over the medium-term.

The partial conversion of the convertible bond 2018 and the resulting decrease in servicing requirements reduced our required holding in BUWOG shares by roughly 4.5 million. We therefore placed these shares on the capital market and, after the deduction of all costs, realised proceeds of approximately EUR 97.4 million. Our historically most expensive corporate bond, which had a volume of EUR 100.0 million and a coupon of 5.25%, was redeemed as scheduled at the beginning of July.

A share buyback programme with a volume of up to 20 million shares was launched in March, and a dividend of six Euro cents per share for the abbreviated 2016 financial year was paid in June.

We reached a milestone during the past half-year with an agreement to terminate the legal proceedings over the review of the exchange ratio applied to the merger of IMMOEAST and IMMOFINANZ in 2010. The settlement process has since been formally completed and involved compensation of 0.088 IMMOFINANZ shares for each previous IMMOEAST share to the former IMMOEAST shareholders. That marks the end of the last historical legal dispute at the shareholders' level.

The past is now history, and we can turn our attention to the future and the creation of sustainable added value for you, our shareholders.

Oliver Schumy

Outlook

The second half of this year is expected to bring a continuation of the generally positive economic trends in our core markets.

Our focus for the next quarters will be placed on the further optimisation of the portfolio structure, efficiency improvements and value-creating growth to strengthen the standing investments. Development projects in the second half of 2017 will include the opening of a new VIVO! shopping center in Poland and a STOP SHOP in Serbia.

We are also working, as previously announced, on the separation of our Russian portfolio, which has distinct market characteristics and a higher risk profile. Discussions with interested parties have reached an advanced stage and we are optimistic that this separation will be completed as planned by year-end.

A next step will involve the resumption of detailed discussions with CA Immo on the planned merger of our two companies.

On the capital market, IMMOFINANZ has regained its standing as a sustainable dividend stock. Plans for the 2017 financial year include the payment of a ordinary dividend of six Euro cents per share.

Our Company at a Glance

Focus on office and retail properties in seven core markets

Our portfolio includes office and retail properties at the best locations in the most promising countries. In addition to the professional management of these properties, we focus on value-creating growth through our own development projects and acquisitions and on the further optimisation of the portfolio structure – always with the goal of strengthening our standing investments and sustainable cash flow.

Seven core markets form the geographical focus of our business activities: Austria, Germany, Poland, Czech Republic, Slovakia, Romania and Hungary. Our local teams in each of the core markets are the guarantee for a strong service orientation and customer satisfaction.

On 19 December 2016 the Executive Board and Supervisory Board approved the separation of the retail portfolio in Russia through a sale or spin-off. In accordance with IFRS 5, the Russian portfolio has therefore been presented as a discontinued operation since 31 December 2016.

The IMMOFINANZ share has traded on the Vienna Stock Exchange since December 1994 and on the Warsaw Stock Exchange since May 2013.

OUR BRANDS

In recent years we have developed and established two brands for our retail portfolio: STOP SHOP and VIVO!. Our latest step was the introduction of myhive, our international office brand, in September 2016. This brand strategy is driving the steady expansion of our competitive position.

myhive

Our offices meet all the expectations of a modern working environment and are concentrated at locations in capital cities and the major office locations in Germany. We rely on innovative office concepts to meet the needs of our tenants. myhive stands for a friendly and lively atmosphere and for an international community, combined with optimal infrastructure and services.

VIVO!

VIVO! is our brand for shopping centers. These facilities are designed for cities with a catchment area of at least 200,000 residents and are characterised by strong anchor tenants and an attractive branch mix. VIVO! combines shopping with a special experience factor for the entire family. These shopping centers are generally single-storey, have a high recognition value and are ideally suited for further growth.

STOP SHOP

STOP SHOP is our brand for retail parks in Central and Eastern Europe. They are appealing and practical local suppliers in catchment areas of 30,000 to 150,000 residents and have a diverse product offering with attractive value for money. With their good traffic links and extensive parking, they address price-conscious "smart shoppers" who value easy accessibility.

RUSSIA (DISCONTINUED OPERATION)

The portfolio category **Retail Moscow** consists of five shopping centers in Moscow, which had a combined value of EUR 976.4 million as of 30 June 2017. Since the Russian properties have distinct market characteristics and a different risk profile than the remainder of the portfolio, IMMOFINANZ plans to sell or spin off these shopping centers. Retail Moscow is therefore presented as a discontinued operation in accordance with IFRS 5.

IMMOFINANZ on the Capital Markets

THE MARKET ENVIRONMENT AND THE IMMOFINANZ SHARE

The favourable development of corporate profits, positive economic indicators and a continuation of expansive monetary policies supported a generally friendly mood on the stock exchanges during the first half of 2017. Moderate interest rate hikes by the US Federal Reserve led to smaller price corrections in the USA at mid-March and mid-June. In Europe, high June growth rates in the Euro zone fuelled concerns over an increase in interest rates by the European Central Bank as well as fears that the current strength of the Euro will have a negative effect on the sound level of exports. The Vienna Stock Exchange continued the positive development that began in the third quarter of 2016 during the first two quarters of 2017.

The IMMOFINANZ share started the 2017 financial year at a price of EUR 1.85 and closed the reporting period on 30 June 2017 at EUR 2.00. As of the editorial deadline for this report (25 August 2017), the share traded at EUR 2.12.

SHARE CAPITAL AND DISTRIBUTION POLICY

The share capital of IMMOFINANZ AG totalled EUR 1,052.5 million as of 30 June 2017 (31 December 2016: EUR 976.0 million) and was divided into 1,052,525,375 bearer shares (ISIN AT0000809058; 31 December 2016: 975,955,651 shares), each of which represents a proportional share of EUR 1.00 in share capital.

In January 2017 the conversion offer was accepted for approximately 43.4% of the nominal value of the convertible bond 2018 outstanding as of the effective date (see below). This acceptance resulted in the issue of 63.5 million IMMOFINANZ shares.

The legal proceedings over the review of the exchange ratio applied to the 2010 merger of IMMOEAST and IMMOFINANZ were terminated through a settlement in May 2017. The agreement calls for the distribution of an additional 29,985,306 IMMOFINANZ shares to the former IMMOEAST shareholders. Of this total, 16,948,049 shares were taken from treasury stock and the remaining 13,037,257 shares came from a capital increase from authorised capital.

The share buyback programme 1/2017 was approved on 14 March 2017. It has a maximum volume of 20 million shares. IMMOFINANZ held 3,600,000 treasury shares as of 30 June 2017.

8. Resolution on the amendment of the Articles of Association.
9. Resolution on the approval of a settlement with the former member of the Executive Board Karl Petrikovics according to § 84 (4) sentence 3 of the Austrian Stock Corporation Act.

BONDS

IMMOFINANZ had three convertible bonds and one corporate bond outstanding as of 30 June 2017. These securities had a total nominal value of EUR 705.9 million outstanding.

The 4.25% convertible bond 2018 (ISIN XS0592528870) had an outstanding volume of EUR 287.3 million as of 30 June 2017. On 12 January 2017 IMMOFINANZ invited the holders of the convertible bond 2018 to submit incentivised conversion declarations for their bond certificates. The bondholders issued conversion declarations for a total of EUR 219.8 million, or 43.4%. The remaining outstanding volume will be repaid on 8 March 2018 (maturity date) unless there are conversions into shares before that date. As of 30 June 2017, one certificate of this bond (nominal value: EUR 4.12) can be converted into 1.2410 IMMOFINANZ shares and 0.0653 BUWOG shares.

The 1.25% convertible bond 2017 (ISIN XS0332046043) still has a nominal value of EUR 21.4 million outstanding and will be redeemed on 19 November 2017 (maturity date) unless it is converted in full or in part before that date. As of 30 June 2017, one certificate of the convertible bond 2017 (nominal value: EUR 100,000.0) can be converted into 13,308.36 IMMOFINANZ shares and 722.21 BUWOG shares.

IMMOFINANZ held roughly 10 million BUWOG shares as of 31 December 2016, which represented an investment of approx. 10%. After the incentivised conversion of the convertible bond 2018 in January 2017 (see above), approximately 4.5 million BUWOG shares were successfully placed through an accelerated bookbuilding process. The net proceeds from the transaction totalled EUR 97.4 million. IMMOFINANZ held approximately 4.7 million BUWOG shares, representing an investment of 4.2%, as of 30 June 2017, which are reserved for the proportional servicing of the convertible bonds 2017 and 2018.

Parallel to the incentivised conversion of the convertible bond 2018, IMMOFINANZ issued a seven-year convertible bond (ISIN XS1551932046) with a 2% coupon and a volume of EUR 297.2 million. The bond terms call for a reduction of 50 basis points in the coupon starting with the interest payment period which begins on the day after the company receives an investment grade rating from S&P, Moody's or Fitch. The conversion price equalled EUR 2.2937 as of 30 June 2017 (original conversion price on the issue date: EUR 2.3933). The convertible bond 2024 includes a put option for bondholders after five years (i.e. 24 January 2022) and will be repaid at 100% of the nominal value on 24 January 2024 (maturity date) unless it is redeemed in full or in part before that date.

The 5.25% corporate bond 2017 (AT0000A0VDP8) was issued in July 2012 with a nominal value of EUR 100 million and was redeemed at 100% of this amount on 3 July 2017.

Additional details on the bonds are provided under *Financing* on page 38.

INVESTOR RELATIONS ACTIVITIES

The goal of investor relations activities is to communicate an accurate picture of the Group and thereby ensure an appropriate valuation of the IMMOFINANZ share. We also took part in a wide variety of investor conferences, roadshows and information events to date in 2017, among others in Berlin, Frankfurt/Main, Helsinki, London, Paris, Stockholm, Tallinn, Vienna, Warsaw, Zurich and Zürs. Numerous investors and analysts also took advantage of the opportunity to learn about the IMMOFINANZ property portfolio through visits to our various core markets. The continuous and timely distribution of information is supported by our company website www.immofinanz.com, corporate blog <http://blog.immofinanz.com> and newsletter.

As an additional service for investors and analysts, the IMMOFINANZ investor relations app provides up-to-date information on the share price as well as financial reports, presentations, ad-hoc press releases and corporate news. IMMOFINANZ's financial reporting dates can also be transferred directly to a personal calendar with a simple click.

GROUP MANAGEMENT REPORT

Economic Overview and Property Markets

The EU Commission's spring forecast* generally confirmed previous growth expectations for 2017 and 2018. Estimates for the Euro zone now point to an increase of 1.7% in 2017 (winter forecast: 1.6%) and 1.8% in 2018 (1.8%). The forecast for the European Union as a whole was raised slightly from 1.8% to 1.9% for 2017 and 2018.

Positive expectations for growth

Growth forecasts for the IMMOFINANZ core markets can be summarised as follows: Austria (2017: 1.7%; 2018: 1.7%), Germany (1.6% and 1.9%), Hungary (3.6% and 3.6%), Slovakia (3.0% and 3.6%) and Poland (3.5% and 3.2%). Projections remained unchanged for the Czech Republic (2017: 2.6%; 2018: 2.7%) and were reduced slightly for Romania (4.3% and 3.7%).

The general improvement in the economic climate has had a positive effect on the labour market and leads to expectations of a decline in the unemployment rate in all core countries. The leader in this respect is Hungary with a projected significant drop in unemployment to 4.1% in 2017 and 3.9% in 2018. That represents a forecasted decline in unemployment of 0.7 percentage points in 2017 and 0.6 percentage points in 2018. The lowest unemployment is still expected in the Czech Republic at 3.5%.

Inflation has increased in recent months due to the rise in energy prices, whereby the core inflation rate has remained relatively constant and is still below the long-term average. The inflation rate in the Euro zone is expected to equal 1.6% in 2017 before declining to 1.3% in 2018.

These forecasts could, however, be negatively influenced by US trade policies and/or geopolitical crises in the future. Additional risk factors include the economic situation in China, the capitalisation of European banks and health sector financing as well as the consequences of the Brexit.

TRANSACTION MARKET WITH RECORD VOLUMES

Strongest investment half-year to date in Austria

The European transaction markets were again characterised by strong momentum. Commercial property transactions rose by 13% year-on-year to EUR 130 billion in the first half of 2017. Germany was responsible for EUR 25.8 billion of this volume, for an increase of 45% in investments over the previous year. The strong demand for office properties in Germany reflects investors' confidence in the long-term stable development of the economy. The prime yield for office properties in Düsseldorf equalled 3.6%, but again dropped to 3.3% for the top five cities.

The transaction volume in Austria rose by 80% year-on-year to EUR 2.4 billion in the first half of 2017 and marks the highest volume of investments ever recorded in this country. A minimum volume of EUR 3.5 billion is expected for the full year, which would break the previous record set in 2015. Yields remain under pressure – they currently equal 4.0% for prime properties on the Vienna office market, but are expected to trend downwards towards 3.8%.

In the CEE core region**, the transaction volume totalled approx. EUR 5.2 billion in the first half of 2017. Rental prices remained largely stable. The office market in Warsaw, which saw increasing pressure on yields in recent quarters, stabilised during the past six months.

The vacancy rates in IMMOFINANZ's core markets are stable to declining. Only the office market in Bratislava recorded a slight rise in vacancies to 7.2% due to a seasonal decline in take-up. Vacancies on the Warsaw office market fell slightly to 13.9% based on a lower level of completions. The vacancy rate fell by a substantial 1.2 percentage points to 9.4% in Prague and reached a historical low of 9.2% in Budapest following a further 0.3 percentage point decline.

*Positive trend in
the development of
vacancies*

The vacancy rate in the Moscow shopping centers has fallen by 1.7 percentage points to 8.8% since year-end 2016. No shopping centers were completed during the first six months, but approx. 195,000 sqm of additional space is expected by the end of this year. Twenty-three international retailers entered the Moscow market during the reporting period, which represents a slight increase over the 21 market entries recorded in the first half of 2016.

Portfolio Report

The core business of IMMOFINANZ covers the management and development of retail and office properties in selected countries of Central and Eastern Europe. The company's activities in the office sector – with the new international brand myhive – are concentrated on the capital cities of the core countries and on the largest office locations ("Big 7" cities) in Germany. Office properties represented 61.1% of the portfolio value and 56.1% of the rental income from standing investments in the first half of 2017. The expansion of the retail portfolio is focused on the *STOP SHOP* and *VIVO!* brands, which are designed primarily for secondary and tertiary cities. Retail properties represented 33.3% of the portfolio value and 43.4% of the rental income from standing investments. IMMOFINANZ's goal is to create a high-quality, profitable portfolio of commercial properties.

The properties assigned to the Other asset class represent 5.5% of the total portfolio and are not part of IMMOFINANZ's core real estate assets. They cover all other activities that cannot be allocated to the office or retail businesses. This category includes, above all, the condominium apartments developed by IMMOFINANZ in Romania (Adama) and Poland as well as residential buildings in Austria that are designated for sale and the apartments in the *Gerling Quartier* in Germany which were sold after the end of the reporting period.

Portfolio value of EUR 4.0 billion, excluding Russia

The property portfolio covered 242* properties with a combined value of EUR 4,059.6 million* as of 30 June 2017, which are located in the core markets of Austria, Germany, Czech Republic, Slovakia, Hungary, Romania and Poland. Standing investments represent the largest component at EUR 3,345.5 million* or 82.4%* of the total carrying amount and approximately 1.8 million* sqm of rentable space. These properties generate steady rental income and are allocated to the Asset Management sector. Active development projects comprise EUR 433.4 million or 10.7% of the carrying amount and real estate inventories EUR 59.8 million or 1.5%. A carrying amount of EUR 220.9 million or 5.4% is attributable to pipeline projects, which include future planned development projects and undeveloped land.

On 19 December 2016 the Executive Board and Supervisory Board approved the separation of the Russian retail portfolio (Retail Moscow) through a sale or spin-off. The Russian portfolio has therefore been reported in the consolidated financial statements since 31 December 2016 as a discontinued operation in accordance with IFRS 5.

The key indicators on Russia and Retail Moscow are still presented separately in this portfolio report due to the size of the portfolio (property value as of 30 June 2017: EUR 976.4 million). Other properties that fall under the scope of application of IFRS 5 – i.e. properties classified as held for sale – are not included in the portfolio report in line with previous practice (detailed information is provided in section 4.5, page 68, of the consolidated interim financial statements).

PROPERTY SALES

The optimisation of the portfolio structure also includes the sale of properties that are not part of the core business. These sales are directed, above all, to properties that no longer fit with the core portfolio because of their size, location, quality or other features. The focus in the office sector, for example, is on larger buildings because they can be managed more efficiently. The proceeds from these sales are invested to expand the portfolio, in other words in development projects and acquisitions.

This strategy was consistently followed in the first half of 2017 with the sale of properties totalling EUR 128.0 million. These transactions included, for example, a number of retail properties and office buildings in Austria as well as real estate inventories in Poland and Romania. The *Friesenquartier* in Cologne, a package that includes mixed use properties and an underground garage, was sold at the end of January 2017. The closing for the transaction took place in April 2017. In addition, the hotel in Cologne's *Gerling Quartier*, which is currently in the project development phase and will be completed by IMMOFINANZ, was sold through a forward purchase. This package also includes the undeveloped property in the second construction section of the *Gerling Quartier*.

In July, i.e. after the end of the reporting period, the six office buildings in the first construction section of the *Gerling Quartier* (total rentable space: approx. 21,500 sqm) were sold to Quantum Immobilien Kapitalverwaltungsgesellschaft mbH. Quantum and PROXIMUS also purchased a currently unused commercial property at *Hohenzollernring 62* in Cologne, which has approx. 10,000 sqm of rentable space and the remaining apartments in the first construction section of the *Gerling Quartier*. These transactions are expected to close by year-end 2017.

PROPERTY ACQUISITIONS

In November 2016 IMMOFINANZ announced the acquisition of eight retail parks in Slovakia and Hungary. A further retail park was also purchased in Romania. These transactions closed in several stages during the first half of 2017.

INVESTMENTS

IMMOFINANZ invested a total of EUR 163.6 million in the property portfolio during the first half of 2017 (H1 2016: EUR 86.7 million).

THE IMMOFINANZ BRANDS

IMMOFINANZ developed and established the *STOP SHOP* and *VIVO!* brands for its retail portfolio in recent years. *myhive*, an international office brand, was introduced in September 2016. This clearly defined brand strategy is supporting the steady expansion of the company's competitive position.

OFFICE

*myhive: the office
of the future*

The international office concept **myhive** is directed exclusively to locations in capital cities. *myhive* stands for a friendly and lively atmosphere, communicative interaction between tenants and optimal infrastructure. The offices are characterised by attentive and helpful staff, easy accessibility and numerous services. Included here, for example, are shops and services for everyday needs, flexible and serviced offices, fast WLAN in the common areas and a sport offering. The interaction and cooperation between tenants is also supported by attractive communication zones, tenant lounges and interesting events.

The first phase is almost complete and involves the redesign and rebranding of 19 office properties as *myhive* locations. This category represents an important source of income for IMMOFINANZ with a 24.0% share of the portfolio value and 26.5% of the rental income from standing investments. The *myhive* office buildings include, among others, the *myhive Twin Towers* (Vienna, Austria), *myhive S-Park* (Bucharest, Romania), *myhive Park Postępu* and *myhive Nimbus* (Warsaw, Poland) and *myhive Átrium Park* (Budapest, Hungary).

RETAIL

*VIVO! shopping
centers in four
markets*

VIVO! stands for high-quality shopping centers, primarily on a single level. The tenants are generally a mix of international and local retailers, with a focus on fashion and entertainment. The VIVO! concept is based on high standardisation and therefore optimally suited for further development projects. Recent activities also involved the roll-out of the VIVO! brand to further shopping centers. The VIVO!/shopping center properties represent 15.5% of the portfolio value and 20.8% of the rental income from standing investments. These shopping centers include, among others, the four Romanian locations VIVO! Cluj, VIVO! Constanța, VIVO! Baia Mare and VIVO! Pitești as well as the two VIVO! shopping centers in the Polish cities of Piła and Stalowa Wola.

STOP SHOP
Simmering | AT | approx.
4,000 sqm rentable space

STOP SHOPs are retail parks with a standardised format and an attractive tenant mix. They represent 16.3% of the total portfolio value and 21.2% of the rental income from standing investments. The STOP SHOP locations are found primarily in catchment areas with 30,000 to 150,000 residents and have 8,000 to 15,000 sqm of rentable space. This concept is suitable, above all, for secondary and tertiary cities in lower-income regions. The STOP SHOPS are attractive properties with uniform quality standards, an easy-shopping concept for everyday needs and high recognition value.

STOP SHOP:

RUSSIA (DISCONTINUED OPERATION)

The portfolio category **Retail Moscow** consists of five shopping centers in Moscow, which had a combined value of EUR 976.4 million and generated rental income of EUR 21.2 million in the second quarter of 2017. Since the Russian properties have distinct market characteristics and a different risk profile than the remainder of the portfolio, IMMOFINANZ plans to sell or spin off these shopping centers. Retail Moscow is therefore presented as a discontinued operation in accordance with IFRS 5.

STANDING INVESTMENTS

With 82.4%* of the total property portfolio, the standing investments are the major source of earnings for IMMOFINANZ. Standing investments are properties held to generate rental income. The most important objectives for the management of these properties include the continuous improvement of quality and efficiency, the strengthening of ties with existing tenants and the acquisition of new tenants.

The 145* standing investments had a combined carrying amount of EUR 3,345.5 million* as of 30 June 2017. Of this total, 60.6% are attributable to office properties and 38.4%* to retail properties. The focal point of the standing investments based on the carrying amount are the markets in Austria (EUR 870.7 million), Romania (EUR 626.8 million) and Poland (EUR 587.1 million).

These properties have 1,766,019* sqm of rentable space. Based on annualised rental income**, the portfolio has a gross return of 6.1%, respectively 6.6% after an adjustment for occupancy.

Occupancy rate raised to 92.8%

The occupancy rate rose to 92.8% in the first half of 2017 (31 December 2016: 89.6%). IMMOFINANZ rented approx. 122,000 sqm of usable space during the reporting period (excl. Other standing investments and excl. Russia), including roughly 10% (12,000 sqm) of pre-rentals in development projects. The take-up in the standing investments amounted to approx. 110,000 sqm, or 6% of the total rentable space in these properties. Of this total, 34,000 sqm, or 31%, represent new rentals and 76,000 sqm contract extensions with existing tenants. The average unexpired lease term (WAULT***) weighted by rental income equalled four* years as of 30 June 2017.

RENTAL INCOME LIKE-FOR-LIKE

A like-for-like analysis (i.e. acquisitions, completions and sales are deducted to facilitate comparison with the first half of 2016) shows an improvement in rental income to EUR 92.4 million in the first six months of 2017. That represents an increase of 4.6% compared with the first two quarters of 2016. Higher occupancy led to an increase in rental income by EUR 1.2 million to EUR 23.5 million in Romania, by EUR 1.0 million to EUR 13.6 million in Hungary, by EUR 0.7 million to EUR 22.9 million in Austria and by EUR 0.3 million to EUR 10.9 million in the Czech Republic.

OFFICE STANDING INVESTMENTS

The carrying amount of the 57 office standing investments totalled EUR 2,028.8 million as of 30 June 2017 and represents 60.6% of the standing investment portfolio. A regional analysis shows the focal points of these properties in the core markets of Austria (EUR 736.8 million), Poland (EUR 362.6 million) and Romania (EUR 314.0 million).

The office standing investments have 977,209 sqm of rentable space. Based on annualised rental income (rental income Q2 2017: EUR 28.5 million), these properties generated a gross return of 5.6% or 6.2% after an adjustment for occupancy.

The occupancy rate in the office portfolio rose to 90.1% in the first half of 2017 (31 December 2016: 87.3%). The take-up in the office properties totalled approx. 98,000 sqm. Nearly 92,000 sqm of this take-up was located in standing investments and represents over 9% of the total space in these office properties. The standing investment take-up covered 29% of new rentals and contract supplements and 71% of contract extensions by existing tenants. The largest individual new rentals were registered at over 1,600 sqm each in Warsaw at the *myhive Crown Point* with a co-working provider and in Vienna for the *myhive Twin Towers* with an IT company. The take-up in development projects amounted to roughly 5,900 sqm.

**Occupancy rate
in the office portfolio rises
to 90.1%**

The office portfolio has a balanced tenant structure. The ten largest tenants are responsible for 20% of the space in the standing investments, and no single tenant has rented more than 3% of the total space in these office properties. Of the total leases for office space, 38% have a term of five years or longer. The WAULT* equalled nearly four years as of 30 June 2017.

RETAIL STANDING INVESTMENTS

The carrying amount of the 81* standing investments in the retail sector totalled EUR 1,285.5 million* as of 30 June 2017 and represents 38.4%* of the total standing investment portfolio. The largest regional markets are Romania with EUR 311.2 million, Slovakia with EUR 244.6 million and Poland with EUR 224.5 million.

The retail standing investments have 788,810* sqm of rentable space. Based on annualised rental income (rental income in Q2 2017: EUR 22.1 million*), these properties generated a gross return of 6.9%* or 7.2% after an adjustment for occupancy.

37% of the retail rental contracts have a term of five years or longer

The occupancy rate in the retail properties rose to 96.2%* as of 30 June 2017 (31 December 2016: 93.0%*). The take-up in the retail properties, excluding Russia, amounted to roughly 24,000 sqm in the reporting period. This volume includes 18,000 sqm in standing investments, which corresponds to roughly 2% of the total space in the retail standing investments. The take-up covered 40% of new rentals and contract supplements and 60% of contract extensions by existing tenants. Major new rentals over roughly 1,000 sqm each included, for example, the Polish *VIVO! Krosno* development project and the *Na Příkopě* standing investment in Prague.

IMMOFINANZ relies on a balanced tenant mix and the inclusion of recreational and entertainment opportunities to create an optimal environment for retailers and their customers. All of the larger IMMOFINANZ retail properties have numerous solid international and local anchor tenants. Retailers from the fashion sector are the largest tenant group based on rented space, followed by food products. Other important tenant groups are electronics, health & beauty, shoes and entertainment. Of the total rental contracts, 37% have a term of five years or longer. The WAULT** equalled roughly four years as of 30 June 2017.

DEVELOPMENT PROJECTS

With the development of office and retail properties in the core markets, IMMOFINANZ strengthens its standing investment portfolio and safeguards organic growth. The company covers the entire value chain on these projects – from site preparation to property rental.

Development projects with a carrying amount of EUR 433.4 million

The active development projects had a carrying amount of EUR 433.4 million as of 30 June 2017, which represents 10.7% of the total property portfolio. The expected fair value on completion amounts to EUR 607.6 million. Activities are currently focused on the core markets of Germany, Romania und Poland. Germany is responsible for 71.4% (EUR 433.9 million), Romania for 9.7% (EUR 58.6 million) and Poland for 7.0% (EUR 42.6 million) of the expected fair value after completion. The development projects also include the extensive modernisation of existing properties which will be reclassified to the standing investment portfolio after completion. Modernisation projects were ongoing in two buildings as of 30 June 2017.

CURRENT FOCUS OF DEVELOPMENT ACTIVITIES

GERMANY

Düsseldorf

Development projects focused on Germany

The new global headquarters for trivago is currently under construction in the Medienhafen with approx. 26,000 sqm of rentable office space in the first building section. This six-storey, horizontally structured building opens towards the harbour basin, which creates an expansive campus with a welcoming atmosphere. Construction started during spring 2016, and the topping-out ceremony to mark the completion of the building shell was held at the beginning of July. The first section is scheduled for completion in mid-2018. Additional expansion areas can be realised in the second section (up to approx. 16,000 sqm).

Also under development in the Medienhafen is the *FLOAT*, an office ensemble with six buildings designed by the star architect Renzo Piano. The utility company Uniper has leased the entire office space of approx. 28,000 sqm and will use the building as its new headquarters starting in mid-2018.

Aachen

The *Cluster Produktionstechnik* with approx. 28,000 sqm of rentable space is the largest technology cluster in the RWTH (Rheinisch-Westfälische Technische Hochschule) Aachen expansion project. The opening took place on schedule at the end of May 2017 and rentals have already reached roughly 97%.

POLAND

In Poland, IMMOFINANZ is continuing the expansion with its STOP SHOP brand. Six retail parks have already opened in this country, and other locations are currently in preparation or under evaluation. IMMOFINANZ is also constructing a further shopping center under its *VIVO!* brand in the Polish city of Krosno, which will have approx. 21,000 sqm of rentable space. Construction started in October 2016 and the opening is planned for the end of September 2017.

SERBIA

Four further STOP SHOP locations are planned for Serbia. The new retail parks in Požarevac, Lazarevac, Vršac and Sremska Mitrovica will have approx. 30,000 sqm in total and are currently in different stages of construction. The *STOP SHOP Lazarevac* has roughly 10,000 sqm of rentable space and nearly 220 parking spaces – in September it will open as the fourth STOP SHOP location in Serbia. The other locations are scheduled to open in 2018.

ASSETS HELD FOR SALE

The assets held for sale, excluding the discontinued operation Russia, totalled EUR 413.7 million as of 30 June 2017 and are not included in this portfolio report. Concrete sale plans have been approved for these properties, and their sale is intended in the near future. Including the discontinued operation Russia, the assets held for sale amount to EUR 1,481.7 million. Details are provided in section 4.5 of the notes to the *consolidated interim financial statements* on page 68.

Property Valuation

IMMOFINANZ prepares its consolidated financial statements in accordance with International Financial Reporting Standards (IFRS). Accordingly, the properties must be appraised on a regular basis by independent experts. The valuation of the property portfolio follows the EPRA's Best Practices Policy Recommendations for the application of the fair value method as defined in IFRS.

The IMMOFINANZ properties were valued by independent external appraisers as of 30 June 2017, whereby CBRE was responsible for the portfolios in CEE and Russia and BNP Paribas Real Estate Consult (BNPP REC) for the portfolios in Austria and Germany.

Retail Moscow is presented as a discontinued operation because of the planned sale or spin-off. Due to the size of this portfolio (property value as of 30 June 2017: EUR 976.4 million), Russia, respectively Retail Moscow is presented separately in the property valuation. Other properties which fall under the scope of application of IFRS 5 – i.e. properties held for sale – are not included in accordance with previous practice.

DEVELOPMENT OF PROPERTY VALUATION IN THE FIRST HALF OF 2017

Revaluation results (from continuing operations) totalled EUR 8.3 million in the first half of 2017 (H1 2016: EUR -81.6 million) and include EUR 6.9 million (H1 2016: EUR -82.9 million) of foreign exchange-adjusted revaluations. Positive effects were provided, among others, by the *FLOAT*, *trivago Campus* and *Cluster Produktionstechnik* development projects in Germany. These effects were contrasted, among others, by value declines to standing investments which included smaller or non-strategic office properties in Austria, the Czech Republic and Poland as well as retail properties in Austria and a retail property in Poland.

The foreign exchange-based revaluations of investment property amounted to EUR 1.4 million (H1 2016: EUR 1.3 million) and were related primarily to non-core countries whose functional currency is not the Euro.

DEVELOPMENT OF PROPERTY VALUATION LIKE-FOR-LIKE

The following tables present a like-for-like analysis of the valuation effects in the first half of 2017. In order to improve comparability, the data are adjusted for new acquisitions, completions and sales. Value increases were recorded in Hungary, the Czech Republic and Slovakia due to an improvement in the market environment or higher occupancy in the retail properties. This growth was contrasted by slight declines in Poland and Romania, which were based primarily on expenses connected with the myhive roll-out. The relocation of several larger tenants from one office property each in Austria and Romania also had a negative effect.

DEVELOPMENT OF PROPERTY VALUATION IN THE DISCONTINUED OPERATION RUSSIA

The foreign exchange-adjusted revaluation – which represents the change in the value of the Russian investment properties in US Dollar translated into the Euro – totalled EUR 6.5 million in the first half of 2017 (H1 2016: EUR -65.9 million). The foreign exchange-based revaluation – which resulted from the translation of the Ruble property values in the local Russian companies – amounted to EUR -21.2 million (H1 2016: EUR -113.0 million).

Financing

IMMOFINANZ successfully arranged all necessary refinancing and extensions for standing investments and development projects as planned during the first half of the 2017 financial year. In order to utilise the currently favourable environment, IMMOFINANZ also regularly evaluates opportunities to renew and optimise existing financing prior to maturity while, at the same time, maintaining a balanced term structure. The focus is placed on the combination of individual properties in an asset class and region into a portfolio in order to arrange for financing at more attractive conditions.

Multi-stage refinancing

In January 2017, IMMOFINANZ invited the holders of the convertible bond 2018 to accept an incentivised conversion into IMMOFINANZ shares and BUWOG shares plus a conversion premium. The bondholders had also the option of receiving a cash settlement as an alternative to the BUWOG shares. Conversion declarations were submitted for a total nominal value of EUR 219.8 million, or 43.4%, of the outstanding nominal value from the convertible bond 2018. This reduced the outstanding nominal value of the convertible bond 2018 to EUR 287.3 million.

Parallel to the incentivised conversion of the convertible bond 2018, IMMOFINANZ issued a new convertible bond with a 2% coupon per year, a term ending in 2024 and a volume of EUR 297.2 million. The issue terms allow the holders of the convertible bond 2024 to put their securities for premature redemption as of 24 January 2022. The initial conversion price equalled EUR 2.3933* (as of 30 June 2017: 2.2937), which currently represents the right to conversion into 129.6 million IMMOFINANZ shares.

This combination of measures will reduce future financing costs and improve the term structure of the Group's financial liabilities. In addition, IMMOFINANZ placed approx. 4.5 million BUWOG shares on the capital market through an accelerated bookbuilding at the beginning of February 2017. This transaction generated net proceeds of roughly EUR 97.4 million. IMMOFINANZ still holds 4.7 million BUWOG shares, which are reserved for servicing the convertible bonds 2017 and 2018.

Improvement in term structure and financing costs

Financial liabilities, excluding the discontinued operation Russia, totalled EUR 2.7 billion as of 30 June 2017 (31 December 2016: EUR 2.8 billion). Cash and cash equivalents amounted to EUR 316.7 million incl. cash and cash equivalents from IFRS 5 (31 December 2016: EUR 193.4 million). Net debt, i.e. debt after the deduction of cash and cash equivalents held by the Group, equalled EUR 2.4 billion (31 December 2016: EUR 2.6 billion). Financial liabilities attributable to the discontinued operation Russia amounted to EUR 674.7 million as of 30 June 2017 (31 December 2016: EUR 721.7 million).

IMMOFINANZ has a robust balance sheet structure with an equity ratio of 39.9% (31 December 2016: 37.8%) and a net loan-to-value ratio (net LTV) of 46.0%, respectively 49.5% including Russia (31 December 2016: 49.0%, incl. Russia 52.2%).

Net loan-to-value ratio excl. Russia: 46.0%

The net LTV shows the carrying amount of financing less cash and cash equivalents in relation to the total carrying amount of the properties, the market value of the investment in BUWOG shares and the EPRA net asset value (EPRA NAV) of the investment in CA Immobilien Anlagen AG (CA Immo).

* The settlement of the legal proceedings to review the exchange ratio applied to the merger of IMMOEAST and IMMOFINANZ and the payment of the EUR 0.06 dividend per share, both in the second quarter of 2017, led to an adjustment of the conversion price for the convertible bond 2024.

The average financing costs for the standing investments (excl. Russia) amount to 2.69% per year including derivatives and 2.12% per year excluding derivatives.

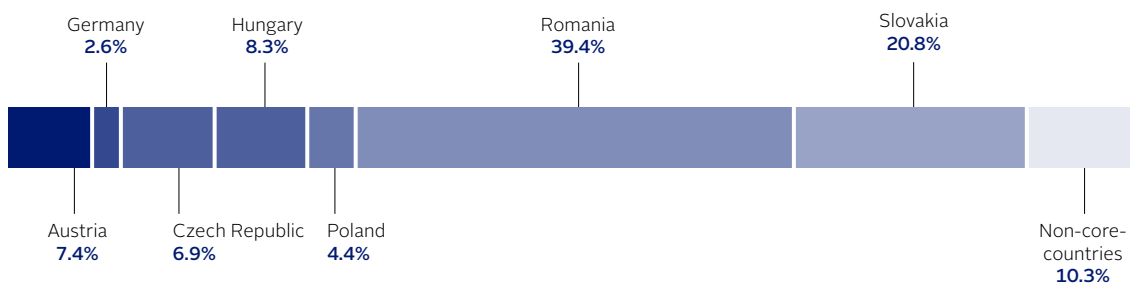

Unencumbered property

In addition to properties which carry external financing and are encumbered through standard market collateral (e.g. mortgages, pledge of company shares), EUR 913.8 million or 16.83% of the total property carrying amount was not externally financed and therefore unencumbered as of 30 June 2017 (31 December 2016: 15.2%). The unencumbered standing investments have a combined carrying amount of EUR 561.1 million or 15.73%.

TERM STRUCTURE

The weighted average remaining term of the financial liabilities, excluding Russia, equals 3 years. The following graph shows the term structure by years as of 30 June 2017. The liabilities scheduled to mature during the 2017 financial year amounted to EUR 676.9 million as of 31 December 2016, whereby EUR 127.7 million were refinanced by the end of the second quarter of 2017 through planned repayments or extensions. The weighted average remaining term of the property financing equals 3.50 years.

IMMOFINANZ refinanced borrowings of EUR 210.0 million which were scheduled to mature in 2018 prior to the end of the term and increased the volume to EUR 250.0 million during the second quarter of 2017. This financing was arranged for the acquisition of roughly 26% of the shares in CA Immo for a total price of approximately EUR 604 million. The refinancing sustainably improves the term structure of the Group's financial liabilities and leads to a significant reduction in interest costs compared with the financing it replaced.

TERM STRUCTURE OF FINANCIAL LIABILITIES DISCONTINUED OPERATION RUSSIA BY FINANCIAL YEARS AS OF 30 JUNE 2017

The Russian financial liabilities totalled EUR 674.7 million at the end of June 2017. An agreement for the full suspension of scheduled repayments was concluded with SBERBANK, which covers the period up to and including the first quarter of 2018. A waiver agreement was also concluded which suspends the calculation of financial covenants up to and including the first quarter of 2018.

Successful loan financing

Total volume of loan financing: EUR 444.8 million

The total volume of refinancing, long-term extensions and cash inflows from new financing amounted to EUR 444.8 million in the first half of 2017.

One highlight in the first half of 2017 was the refinancing arranged for the asset class retail, which covered 29 STOP SHOP properties in Austria, Slovenia, Serbia, Poland and Romania. This refinancing has a total volume of EUR 142.9 million and a term of roughly seven years. The financing volume by country is as follows:

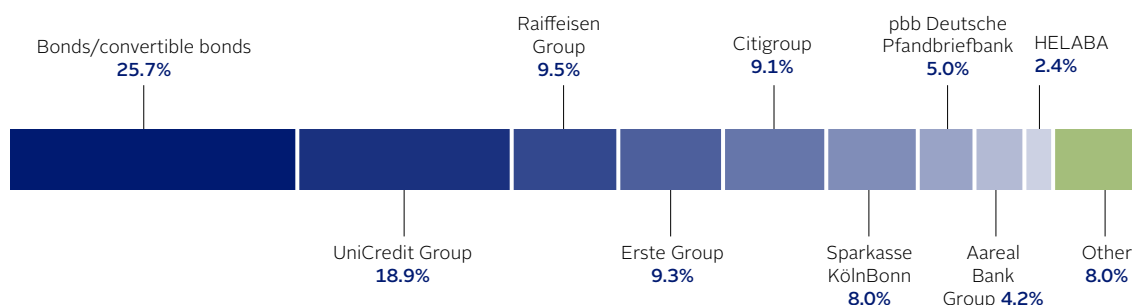

Country	Share of financing volume
Austria	46.2%
Slovenia	19.5%
Poland	15.0%
Serbia	13.3%
Romania	6.0%

This early refinancing will reduce financing costs and further optimise the term structure of the financial liabilities. The financing for Poland was received during the second quarter, and the financing for Austria, Slovenia, Serbia and Romania is expected in the third quarter of 2017.

In Germany, credit lines of EUR 51.9 million were drawn during the first two quarters for the FLOAT and RWTH Aachen Campus development projects in the asset class office. Further pay-outs will follow in line with the progress of construction.

A swap exchanges floating for fixed interest payments. Therefore, floating rate liabilities that are hedged with a swap can be regarded as fixed interest rate liabilities from an economic standpoint.

The interest rates used for discounting and the calculation of variable payment flows are based on interest rate curves for each currency and matching maturities that are observable on the market. In accordance with IFRS 13 (Fair Value Measurement), the resulting market values were adjusted to include a credit value adjustment (CVA) and a debt value adjustment (DVA).

The terms for the conversion rights and the conversion prices of the convertible bonds due in 2017 and 2018 were amended with the spin-off of BUWOG AG from IMMOFINANZ AG on 26 April 2014. The revised terms give each bondholder the right to receive IMMOFINANZ shares as well as a proportional amount of BUWOG shares when the conversion right is exercised.

If dividends are paid by IMMOFINANZ or BUWOG, the conversion rights to shares in IMMOFINANZ and BUWOG are adjusted in accordance with the respective bond terms.

Adjustment of conversion rights

The legal proceedings to review the exchange ratio applied to the merger of IMMOEAST and IMMOFINANZ, which took place in 2010, were terminated through a settlement in the second quarter of 2017. The settlement resulted in the issuance of additional IMMOFINANZ shares to the former IMMOEAST shareholders. The related

capital increase from authorised capital (for a total of 13,037,257 IMMOFINANZ shares) led to the adjustment of the conversion rights for the convertible bonds 2018 and 2024 as of 23 May 2017.

The conversion rights were also adjusted to reflect the EUR 0.06 per share dividend paid by IMMOFINANZ AG and the capital increase by BUWOG AG in the second quarter.

As of 30 June 2017 one certificate from the convertible bond 2018 (nominal value EUR 4.12) entitled the bondholder to conversion into 1.2410 IMMOFINANZ shares (31 December 2016: 1.1908) and 0.0653 BUWOG shares (31 December 2016: 0.0649).

Earnings, Balance Sheet and Cash Flow Analysis

General information:

- The harmonisation of the financial year with the calendar year as of 31 December 2016 resulted in the presentation of comparative data which reflect the corresponding period in the 2016 calendar year. Consequently, this data does not reflect the data previously published for the first two quarters of the abbreviated 2016 financial year (Q1-Q2 2016A), but covers the first half of the 2016 calendar year.
- The retail portfolio Moscow, which was presented as a discontinued operation for the first time in IMMOFINANZ's consolidated financial statements as of 31 December 2016, is also included in these (new) comparative figures in accordance with IFRS 5 – i.e. through the separate presentation of the retail portfolio Moscow as a discontinued operation in the consolidated income statement.

RESULTS OF ASSET MANAGEMENT

The results of asset management include rental income, other revenues, operating income and operating costs as well as the expenses directly attributable to investment property. Rental income remained stable during the first half year of 2017 at EUR 114.9 million (H1 2016: EUR 115.9 million). The decline in rental income resulting from the sale of properties was offset by completions and new rentals. Rental income rose by 1.7% to EUR 56.6 million in the office sector, but declined by 2.0% to EUR 49.1 million in the retail sector. This slight reduction resulted primarily from portfolio adjustments to the retail properties in Austria.

Revenues totalled EUR 160.1 million (H1 2016: EUR 160.3 million). The results of asset management increased by 10.0% year-on-year to EUR 79.1 million (H1 2016: EUR 71.9 million). Property expenses amounted to EUR -41.7 million (H1 2016: EUR -50.0 million) and included a decline in maintenance costs (EUR -8.8 million versus EUR -12.8 million) as well as an increase in fit-out costs for newly rented space (EUR -6.5 million versus EUR -3.0 million) following the conclusion of large-scale rental contracts. A substantial decline was also recorded in operating costs charged to building owners (EUR -6.0 million versus EUR -10.6 million).

RESULTS OF PROPERTY SALES

The results of property sales amounted to EUR 2.0 million in the first half of 2017 (H1 2016: EUR -12.6 million) and reflected the further optimisation of the portfolio. Positive foreign exchange-adjusted valuation effects on the sale of the properties in the *Gerling Quartier* were contrasted by negative effects from the sale of smaller and/or non-strategic office buildings in Austria, the Czech Republic and Poland as well as retail properties in Austria. These transactions had a combined sales volume of EUR 122.8 million (EUR 106.1 million of asset deals and EUR 16.7 million of share deals).

RESULTS OF PROPERTY DEVELOPMENT

The results of property development cover the sale of real estate inventories as well as the valuation of development projects completed in 2017 or currently in progress. In the first half of 2017, the results of property development equalled EUR -28.9 million (H1 2016: EUR 7.4 million). These results are attributable primarily to additional costs for real estate inventories in the *Gerling Quartier* as well as outstanding obligations related to the transfer, repair of deficiencies and completion of the Cologne properties.

The termination of activities in Cologne during the second quarter of 2017 had a total negative effect of EUR -17.8 million on pre-tax earnings (net effect of transaction results and the results of property development).

RESULTS OF OPERATIONS

The results of operations equalled EUR 33.8 million compared with EUR 49.8 million in the first half of 2016. Other operating expenses fell by 8.6% year-on-year to EUR -23.8 million (H1 2016: EUR -26.0 million), chiefly due to a decline in legal, auditing and consulting fees (EUR -6.0 million versus EUR -9.3 million).

REVALUATION, FINANCIAL RESULTS AND EBT

The foreign exchange-adjusted revaluation of investment property equalled EUR 3.5 million (H1 2016: EUR -93.4 million). Financial results amounted to EUR 104.4 million (H1 2016: EUR -58.0 million). Financing costs fell by 4.4% to EUR -52.2 million (H1 2016: EUR -54.6 million), above all due to the interest savings which resulted from the incentivised conversion of 43.4% of the convertible bond 2018 (coupon: 4.25%) at the beginning of the year and the issue of the new convertible bond 2024 (coupon: 2.0%). Other financial results of EUR -10.4 million (H1 2016: EUR -2.6 million) resulted chiefly from the valuation of derivatives at EUR -9.3 million and the earnings effect of EUR -12.6 million from the incentivised conversion of the convertible bond 2018. The valuation of the BUWOG shares at the market price on 30 June 2017 contributed a further EUR 9.0 million.

The share of profit/loss from equity-accounted investments amounted to EUR 164.2 million (H1 2016: EUR 1.0 million) and consisted primarily of the following: EUR 28.3 million for the proportional share of earnings from CA Immo, a valuation gain of EUR 91.9 million on the CA Immo shares, a gain of EUR 18.0 million on the sale of 4.5 million BUWOG shares and a valuation gain of EUR 25.8 million on the BUWOG shares. The book price of the CA Immo share equalled EUR 25.17 on 30 June 2017 (31 December 2016: EUR 21.02).

Earnings before tax (EBT) amounted to EUR 140.2 million in the first half of 2017 (H1 2016: EUR -126.5 million). Income tax expense equalled EUR -27.0 million for the reporting period (H1 2016: EUR 2.7 million).

RESULTS OF DISCONTINUED OPERATIONS

The results of discontinued operations totalled EUR -7.9 million and represent the discontinued core market Russia (H1 2016: EUR -119.4 million, thereof EUR -102.0 million attributable to Russia).

The rental income from Russia rose to EUR 43.4 million in the first half of 2017 (H1 2016: EUR 38.1 million), primarily due to a year-on-year improvement in the Ruble exchange rate. The occupancy rate in the five Moscow shopping centers equalled 87.1% as of 30 June 2017 (31 December 2016: 87.7%). The outstanding rents receivable in Russia amounted to EUR 6.0 million as of 30 June 2017 (31 December 2016: EUR 9.4 million).

The foreign exchange-adjusted revaluation – which represents the change in the value of the Russian investment properties in US Dollar translated into the Euro – totalled EUR 6.5 million in the first half of 2017 (H1 2016: EUR -65.9 million). The foreign exchange-based revaluation – which results from the translation of the Ruble property values in the local Russian companies – equalled EUR -21.2 million (H1 2016: EUR -113.0 million).

Financial results also include foreign exchange effects of EUR 14.0 million (H1 2016: EUR 71.8 million), which represent, more or less, a counterpart to the currency-related decrease in the value of the investment properties. This development reflects the lower value of the foreign currency liabilities in the Russian subsidiaries caused by the appreciation of the Ruble.

NET PROFIT

Net profit from continuing operations totalled EUR 113.1 million in the first half of 2017 (H1 2016: EUR -123.9 million). Net profit (including the results of discontinued operations) amounted to EUR 105.3 million (H1 2016: EUR -243.3 million). Diluted earnings per share equalled EUR 0.09 (H1 2016: EUR -0.24).

Assets totalled EUR 7.0 billion as of 30 June 2017 (31 December 2016: EUR 7.0 billion) and comprise non-current assets of EUR 5.0 billion and current assets of EUR 2.0 billion.

The value of the property portfolio amounted to EUR 5.5 billion and represented 78.9% of total assets as of 30 June 2017. These properties are reported on the balance sheet under the following positions: investment property, property under construction, real estate inventories and non-current assets held for sale. Non-current assets held for sale include properties as well as other assets which will be transferred to the buyer in the event of a sale.

The additions to investment property during the reporting period include, in particular, the acquisition of nine retail parks in Slovakia, Hungary and Romania. The additions to property under construction are related, above all, to the *trivago Campus*, *FLOAT* and *Cluster Produktionstechnik* development projects in Germany.

The investments accounted for at equity declined from EUR 739.3 million to EUR 649.0 million due to the sale of approximately 4.5 million BUWOG shares and the recognition of the remaining BUWOG shares as other financial assets. In addition to the proportional share of CA Immo results for the first six months of 2017 (EUR 28.3 million), this position also includes a revaluation gain of EUR 91.9 million on the CA Immo investment.

Cash and cash equivalents rose from EUR 189.3 million on 31 December 2016 to EUR 310.0 million on 30 June 2017. This is a result of the multi-stage refinancing programme carried out in January, which included the sale of the BUWOG shares as well as the issue of a new convertible bond with a term extending to 2024 (see the section *Financing* on page 33).

Equity totalled EUR 2.8 billion as of 30 June 2017 (31 December 2016: EUR 2.7 billion), and the equity ratio equalled 39.9% on that date (31 December 2016: 37.8%).

Liabilities totalled EUR 4.2 billion (31 December 2016: EUR 4.4 billion). The non-current component equalled EUR 1.9 billion and the current component EUR 2.3 billion.

¹ The economic interest in the CA Immo Group is based on the investment held by IMMOFINANZ in relation to the number of CA Immo shares outstanding over a six-month period – similar to the recognition of the net profit or loss from equity-accounted investments.

EPRA INDICATORS

NET ASSET VALUE (NAV) UND TRIPLE NET ASSET VALUE (NNNAV)

Net asset value (NAV) is calculated in accordance with the Best Practices Recommendations issued by the European Public Real Estate Association (EPRA). The EPRA NAV concept is used to present the fair value of equity on a long-term basis in order to give investors an overview of a company's sustainable asset position. The calculation of EPRA NAV also includes the undisclosed reserves in real estate inventories as well as the (negative) fair value of derivative financial instruments. Undisclosed reserves are not included in carrying amounts in accordance with IFRS accounting rules, while the (negative) fair values of derivative financial instruments regularly serve as a means of hedging long-term financing so these gains or losses will remain hypothetical as of the balance sheet date. The deferred taxes on these items are included. In accordance with the EPRA NAV concept, the calculation should include the deferred taxes that would be realised on the sale of property. Goodwill, which arises as a technical figure due to the recognition of deferred taxes on business combinations, is deducted.

Triple net asset value (NNNAV) is also calculated in accordance with the EPRA's Best Practices Recommendations. The calculation of EPRA NNNAV involves an adjustment to reverse the (negative) fair value of derivative financial instruments from the NAV calculation. In addition, financial liabilities are restated at their fair value. This calculation also includes the deduction of the deferred taxes expected from the sale of properties. Asset deals generally result in the full realisation of deferred taxes, while the assumption for sales through share deals is that IMMOFINANZ will (economically) bear 50% of the deferred tax liabilities.

The EPRA NNNAV calculation also includes the deferred taxes from the adjustments to derivative financial instruments and from the fair value measurement of financial liabilities. The objective is to give investors an overview of the current value of all assets and liabilities.

The calculation of the EPRA NAV and EPRA NNNAV as of 30 June 2017 also included diluting effects that could result from the conversion of the IMMOFINANZ convertible bond 2018. These effects were included for the first time because the convertible bond 2018 was "in the money" as of 30 June 2017 and rational investors can therefore be expected to convert their bond certificates.

The number of shares underlying the calculation of the EPRA NAV per share and the EPRA NNNAV per share rose by 17.6% to 1,135,458,215 as of 30 June 2017. This increase resulted from the incentivised conversion of the convertible bond 2018 (+6.6%) and the issue of 13,037,257 shares from a capital increase from authorised capital for the settlement of the legal proceedings to review the exchange ratio applied to the merger of IMMOEAST and IMMOFINANZ (+3.1%). The repurchase of shares reduced the relevant number of shares by 1.1%. The hypothetical conversion of the convertible bond 2018 resulted in a potential increase of 86.5 million shares (9.0%).

The results of the NAV and NNNAV calculations are shown below:

Deferred taxes on investment property	-86,533		-93,596	
EPRA NNNAV	3,209,320	2.83	2,867,859	2.97

The EPRA net asset value rose by 9.2% to EUR 3.3 billion. The higher number of shares and the potential dilution through the convertible bond 2018 led to a decline in the EPRA NAV per share to EUR 2.90 (31 December 2016: EUR 3.12). The EPRA triple net asset value rose by 11.9% to EUR 3.2 billion, and the triple NAV per share fell from EUR 2.97 to EUR 2.83 as of 30 June 2017.

EPRA EARNINGS PER SHARE

The calculation of EPRA earnings per share as of 30 June 2017 and 30 June 2016 was based on the weighted average number of shares outstanding and included the new shares issued for the IMMOEAST settlement. In accordance with IAS 33, the settlement led to the retroactive adjustment of earnings per share for the first half of 2016. The weighted average number of shares was multiplied by a factor of 1.029 in each case. This factor reflects the ratio of the number of shares outstanding after (1,052,525,375 shares) and before (1,022,540,069 shares) the payment of the settlement.

Risk Report

As an international property investor and project developer, IMMOFINANZ is exposed to a variety of general and branch-specific risks in its business operations. An integrated risk management process provides the Group with a sound basis for the timely identification of potential risks and the assessment of the potential consequences.

***No major changes
in risks during the
first half-year***

Based on the hedging and management instruments currently in use, no material risks can be identified at the present time that could endanger the company's standing as a going concern. An overall evaluation of the risk situation for the first half of the 2017 financial year shows no major changes compared with the abbreviated 2016 financial year.

IMMOFINANZ has anchored the procedures for handling risk in a Group-wide risk management system, which is integrated in business practices and reporting paths and has a direct influence on processes and strategic decisions. Risk management takes place at all levels through internal guidelines, reporting systems and an internal control system (ICS) which is reviewed by the internal audit department.

RISKS IN THE FIRST HALF OF 2017

MARKET RISK AND PROPERTY-SPECIFIC RISKS

The risks arising from the composition of the portfolio and from rentals, project development, property transactions and property valuation are, in total, generally unchanged compared with the abbreviated 2016 financial year.

The development projects current under realisation by IMMOFINANZ (property under construction) have a combined carrying amount of EUR 433.4 million (31 December 2016: EUR 379.0 million), and the real estate inventories have a total carrying amount of EUR 59.8 million (31 December 2016: EUR 93.1 million). The outstanding construction costs totalled EUR 194.7 million as of 30 June 2017 (31 December 2016: EUR 280.8 million).

RISKS RELATED TO THE DISCONTINUED OPERATIONS IN RUSSIA

The five shopping centers in Russia are subject to different market dynamics and have a different risk profile than the rest of IMMOFINANZ's property portfolio. Plans therefore call for the sale or spin-off of these properties before the planned merger with CA Immo. This step is expected to follow during the 2017 financial year and is connected with financial risks (see note 7.2 in the consolidated financial statements of the annual report 2016A for additional information).

BUSINESS AND OTHER RISKS

IMMOFINANZ is also exposed to other risks in connection with its business activities. These legal, compliance, environmental, tax, information security and human resources risks generally remained unchanged in comparison with the abbreviated 2016 financial year.

IMMOFINANZ held approx. 4.7 million shares of BUWOG AG as of 30 June 2017, which are reserved for the possible servicing of the convertible bonds 2017 and 2018. IMMOFINANZ also holds 25,690,163 bearer shares and four registered shares of CA Immobilien Anlagen AG, which represent an investment of roughly 26% in that company.

The planned merger with CA Immo is connected with strategic, financial and operational risks. As a property investor and developer, CA Immo is exposed to the full range of risks arising from the purchase, development, management and sale of properties.

BUWOG and CA Immo shares are listed in the Prime Segment of the Vienna Stock Exchange and are therefore exposed to market price risks.

Significant events occurring after the end of the reporting period are described in note 8 of the interim consolidated financial statements.

NOTES

1. Basis of Preparation

The consolidated interim financial statements of IMMOFINANZ as of 30 June 2017 were prepared for the six-month period from 1 January 2017 to 30 June 2017 (H1 2017) in accordance with the International Financial Reporting Standards (IFRS) which were adopted by the EU and are applicable to interim reporting.

The condensed scope of reporting in these consolidated interim financial statements is in agreement with IAS 34. Information on the application of IFRS, on the significant accounting policies and on further disclosures is provided in the consolidated financial statements of IMMOFINANZ as of 31 December 2016, which form the basis for these consolidated interim financial statements.

These consolidated interim financial statements of IMMOFINANZ were not subjected to a full audit or review by the auditor, Deloitte Audit Wirtschaftsprüfungs GmbH.

The consolidated interim financial statements are presented in thousand Euros ("TEUR", rounded). The use of automatic data processing equipment can lead to rounding differences in the addition of rounded amounts or percentage rates.

1.1 FIRST-TIME APPLICATION OF STANDARDS AND INTERPRETATIONEN

No new or amended standards required mandatory application in the first half of 2017, and there were no voluntary first-time applications.

1.2 STANDARDS AND INTERPRETATIONS APPLICABLE IN THE FUTURE

IFRS 9: Financial Instruments

IFRS 9 will replace the current rules defined by IAS 39 for the recognition and measurement of financial instruments as of 1 January 2018. IMMOFINANZ did not apply IFRS 9 prematurely. The effects of the initial application were analysed during the first half of 2017 and do not lead to expectations of any material effects on the consolidated financial statements of IMMOFINANZ AG from the new classification of financial instruments or the changed impairment model.

IFRS 15: Revenue from Contracts with Customers

IFRS 15 will replace the current rules for revenue recognition defined by IAS 18, IAS 11 and the related interpretations as of 1 January 2018. IMMOFINANZ did not apply IFRS 15 prematurely. Based on the expected reduction of real estate inventories by year-end 2017 (see section 8), it can be assumed that a changeover from the recognition of revenue on apartment developments and sales from a specific point in time to recognition over time will not result in any material effects to the reported amounts. The analyses carried out during the first half of 2017 do not lead to expectations of any material effects on the consolidated financial statements of IMMOFINANZ AG from the sale of investment properties or from service contracts and any supplementary agreements in rental contracts.

IFRS 16: Leasing

IFRS 16 will replace the current rules for the accounting treatment of leases (above all by the lessee) as of 1 January 2019; endorsement by the EU is expected in the fourth quarter of 2017. IMMOFINANZ is currently evaluating the early application of IFRS 16 in the 2018 financial year. IMMOFINANZ is a lessee in connection with rights-of-use assets (building rights, leasehold rights), in particular, in Russia, Poland and Germany. These rights-of-use assets are to be accounted for separately as defined by IFRS 16 and presented as part of investment property, and a corresponding lease liability is to be recognised at the same time. Any effects thereof are currently being evaluated. The analyses carried out in the first half of 2017 also indicated that the scope of other assets used under operating lease contracts (individual offices, automobiles and miscellaneous office and

operating equipment) is not material. The initial application of this new standard is not expected to have any material effects on the consolidated financial statements of IMMOFINANZ AG in connection with lessor accounting.

1.3 CHANGE IN COMPARATIVE INFORMATION

The comparative figures are based on the corresponding period in the 2016 calendar year and, consequently, do not reflect the figures previously published for the first half of the previous abbreviated 2016 financial year (H1 2016A). The retail portfolio Moscow, which was presented as a discontinued operation for the first time in IMMOFINANZ's consolidated financial statements as of 31 December 2016, is also included in these (new) comparative figures in accordance with IFRS 5 – i.e. through the separate presentation of the retail portfolio Moscow as a discontinued operation (see section 2.3) in the consolidated income statement.

2. Scope of Consolidation

2.1 DEVELOPMENT OF THE SCOPE OF CONSOLIDATION

The following table shows the development of the scope of consolidation during the first half of 2017:

Scope of consolidation	Subsidiaries full consolidation	Joint ventures at equity	Associates at equity	Total

Net inflow of cash and cash equivalents	13,884

2.3 DISCONTINUED OPERATIONS

On 19 December 2016 the Executive Board and Supervisory Board of IMMOFINANZ approved the company's exit from the previous core market Russia. The five Russian shopping centers (with roughly 280,000 sqm of rentable space and a combined carrying amount of EUR 976.4 million as of 30 June 2017 (31 December 2016: EUR 1,024.1 million) together with the related service companies (the retail portfolio Moscow) have therefore been presented as a discontinued operation since that date in accordance with IFRS 5. This decision by IMMOFINANZ reflects the fact that the shopping centers in Moscow are characterised by different market dynamics than the other portfolio properties and, consequently, have a negative effect on the Group's risk profile. The exit from the former core market Russia also represents a necessary step towards the planned merger of IMMOFINANZ and the CA Immo Group. The final decision concerning the transactional structure (share deal, asset deals or spin-off of the retail portfolio Moscow) will be taken in the ongoing structured sales process; IMMOFINANZ currently assumes a share deal.

All of the assets and liabilities attributable to the retail portfolio Moscow are reported on the consolidated balance sheet as of 30 June 2017 under "assets held for sale" or "liabilities held for sale" (see section 4.5). On the consolidated income statement, the net profit or loss (after tax) from the retail portfolio Moscow are presented as a separate line for the first half of 2017 and the comparative period (see section 1.2). The closing has to result in the reclassification of cumulative currency translation adjustments in profit or loss (see section 4.5) – the functional currency of the retail portfolio Moscow is the Ruble.

The comparative figures reported for the net profit or loss from discontinued operations on the consolidated income statement also include results from the sale of the logistics portfolio, which was concluded during the abbreviated 2016 financial year.

The following table shows the results of the two discontinued operations as presented in the consolidated income statement:

CA Immobilien Anlagen Aktiengesellschaft (CA Immo) was IMMOFINANZ's most important associate as of 30 June 2017. IMMOFINANZ holds 25,690,163 bearer shares, which represent 26% of share capital, as well as four registered shares with restricted transferability (Golden Shares) which carry rights to delegate up to four members to the CA Immo supervisory board. The investment was acquired as of 2 August 2016 and the purchase price allocation is still considered preliminary. Facts and circumstances that represent indications of de-facto control as defined in IFRS 10 have been continuously reviewed since that time. The 30th annual general meeting of CA Immo was held on 11 May 2017, and IMMOFINANZ did not have a majority presence. Consequently, de-facto control as defined in IFRS 10 continued not to exist as of 30 June 2017.

A "close to market" valuation model (Level 3) was developed for impairment testing as of 31 December 2016 because the fair value (less costs to sell) of the unit of account – i.e. the share package of bearer and registered shares with restricted transferability – could not be determined solely on the basis of the quoted price on the Prime Market of the Vienna Stock Exchange. This valuation model was also applied as of 30 June 2016 and reflects the disparity between voting rights and contractual rights to receive cash flows and the size of the capital investment through the addition of a 24.1% premium (31 December 2016: 22.4%) to the stock market price of EUR 21.36 per share (31 December 2016: EUR 17.47 per share). As of 30 June 2016 the recoverable amount – which represents the resulting fair value of EUR 680.8 million less costs to sell of 1.75% – equalled EUR 668.9 million (31 December 2016: EUR 539.9 million). Consequently, the recoverable amount exceeded the acquisition cost carried forward totalling EUR 646,6 million for the first time; this latter amount represents the book value as of 30 June 2017. The book price of the investment in the CA Immo Group equalled EUR 25.17 per share (31 December 2016: EUR 21.02 per share). The net profit or loss from equity-accounted investments includes therefore not only the proportional results of the CA Immo Group for six months (incl. effects from the carryforward of the fair value adjustments from the preliminary purchase price allocation) but also a reversal of impairment losses of EUR 91.9 million.

IMMOFINANZ carried out an incentivised conversion of the convertible bond 2011–2018 as of 24 January 2017 (see section 4.7), which also included the delivery of 802,219 BUWOG shares. This reduced the carrying amount of the BUWOG investment by EUR 14.2 million. Moreover, IMMOFINANZ sold 4,484,698 BUWOG shares for EUR 21.72 per share as of 6 February 2017 through an accelerated bookbuilding process. The proceeds from this sale (less selling costs) totalled EUR 97.4 million. Based on the book price of the BUWOG share on 31 December 2016 (EUR 17.70 per share), the gain on sale amounted to EUR 18.0 million.

Oliver Schumy resigned as vice-chairman of the supervisory board of BUWOG AG on 6 March 2017. IMMOFINANZ has not exercised significant influence over the BUWOG Group in the sense of IAS 28 since that date, which also marked the end of equity accounting. The termination of equity accounting also required the fair value measurement of the remaining BUWOG shares (closing price on the Vienna Stock Exchange on 6 March 2017: EUR 23.23 per share) and the reclassification of this investment to other financial assets. The corresponding results of EUR 25.8 million were recorded under profit or loss from equity-accounted investments.

The remaining balance of approximately 4.7 million BUWOG shares are reserved for the possible (proportional) servicing of conversions from the convertible bonds 2007–2017 and 2011–2018 (see section 4.7). Therefore, the fair value option provided by IAS 39 was applied to avoid an accounting mismatch which would otherwise occur between the measurement of the financial asset and the financial liability (from the standalone derivatives for the convertible bonds). The BUWOG shares have been subsequently measured at fair value through profit or loss since that time, based on the closing price at the Vienna Stock Exchange as of the respective balance sheet date (Level 1) (see section 5.8).

4.5 ASSETS AND LIABILITIES HELD FOR SALE

The following assets and liabilities classified as held for sale as of 31 December 2016 were sold during the first half of 2017: one Bulgarian standing investment, the *Friesenquartier* in Cologne, one Austrian office property and one Austrian retail property each as well as a further tranche of a small Austrian retail portfolio. The closing for the sale of five real estate fund shares classified as held for sale also took place during the first half of 2017. With regard to the sales that have not yet been realised, management's intention to sell these properties remains intact.

The Austrian office and retail properties classified as held for sale during the first quarter of 2017 were already sold during the second quarter of 2017. In addition, held-for-sale classifications during the first half of 2017 include a property in the asset class other which is under construction in Poland, two office properties in Germany, an office property under construction in the Czech Republic and a retail property in Romania.

The properties initially classified as assets held for sale during the first half of 2017 are expected to be sold through asset deals, with the exception of the share deals planned in the Czech Republic and Romania. These sales are intended to align the portfolio with IMMOFINANZ's strategic focus.

The assets and liabilities held for sale as of 30 June 2017 can be summarised as follows:

Details on the discontinued retail portfolio Moscow are provided in section 2.3. In the first half of 2017 a foreign exchange-adjusted revaluation of EUR 6.5 million (H1 2016: EUR -65.9 million) was recognised under profit or loss from discontinued operations for the retail portfolio Moscow.

In accordance with a resolution of the Executive and Supervisory Boards on 27 April 2016, the *EMPARK Mokotów Business Park (EMPARK)* in Warsaw was initially presented as held for sale in the consolidated financial statements as of 30 April 2016. The *EMPARK*, which comprises nine office buildings, has not been sold to date. The sale process has been made more difficult by a further decline in the tenant demand for office space in the Mokotów district, among others due to an increase on the office space in inner city areas and growing inconvenience from the inadequate road infrastructure and road construction on part of the city. The sale of the *EMPARK* has also been delayed by the necessity to reach a bureaucratic agreement with the Polish authorities because the Institute for National Commemoration holds a co-ownership share in one of the nine office buildings. In view of these circumstances, the sale could not be completed as planned within 12 months. However, management's intention to sell the property remains intact and the realisation of the sale is expected by year-end 2017; a structured sales process is underway. A (foreign exchange-adjusted) revaluation of 3.1 million was recognised to *EMPARK* during the first half of 2017 (H1 2016: EUR -16.1 million).

The closing for the sale of the *Friesenquartier*, which was classified as a disposal group based on resolutions of the Executive and Supervisory Boards on 27 July 2016 and 19 December 2016, took place in the second quarter of 2017. The properties in the *Gerling Quartier* were still included in the portfolio as of 30 June 2017. Revaluations (foreign exchange-adjusted) and write-downs totalling EUR 7.2 million were recognised to investment properties and real estate inventories in the first half of 2017. In addition to the properties attributed to the disposal group comprising the *Friesenquartier* and the two construction sections of the *Gerling Quartier*, a hotel under construction and the accompanying underground parking spaces were sold through a forward sale as of 30 January 2017. These two properties remain classified as real estate inventories because they cannot be sold in their current condition. Write-downs of EUR -11.1 million and an addition of EUR -5.1 million to a provision for onerous contracts were recognised to these two real estate inventories in the first half of 2017 to reflect construction cost overruns; these expense items are both reported under expenses from real estate inventories.

The disposal group comprising 64 Austrian retail properties was reduced by the scheduled sale of additional 16 properties during the first half-year. A (foreign exchange-adjusted) revaluation of EUR -2.5 million was recognised to the properties held for sale in this disposal group during the reporting period.

Based on a resolution by the Executive Board on 4 May 2015, the assets and liabilities in a portfolio of land reserves in Turkey (segment: other non-core countries) have been presented for some time as a disposal group. The political and economic uncertainty as well as the devaluation of the Turkish Lira has, however, reduced the refinancing alternatives for interested investors, and the sale could not be completed as planned within 12 months. IMMOFINANZ's management stands by the original sale decision, and the simplification of the portfolio's investment and financing structure during the first half of 2017 should facilitate the sale through a share deal. An alternative would be the sale in the form of asset deals. A foreign exchange-adjusted revaluation of EUR- 0.3 million was recognised to the properties held for sale in this disposal group during the first half of 2017 (H1 2016: EUR 0.4 million).

4.6 EQUITY

The agreement reached by IMMOFINANZ with the claimants and the representatives appointed for the respective shareholder groups to settle the legal proceedings over the review of the exchange ratio applied to the merger of IMMOEAST AG and IMMOFINANZ AG became legally effective on 23 May 2017. The settlement calls for a compensation of 0.088 IMMOFINANZ shares for each former share of IMMOEAST AG, representing a total of 29,985,306 IMMOFINANZ AG shares, to the former shareholders of IMMOEAST AG. The compensation was made in part from treasury shares (16,948,049 shares) and in part through the issue of new shares from previously authorised capital (13,037,257 shares); it represented a transaction with shareholders that was recorded directly in equity without recognition in profit or loss. Share capital increased by EUR 13.0 million through the issue of the new shares, and capital reserves declined by EUR 44.5 million as a result of the settlement. Included in this amount are issue costs of roughly EUR 0.2 million attributable to the equity transaction. In accordance with IAS 33, the settlement compensation led to the retroactive adjustment of basic and diluted earnings per share – for the comparable period of the 2016 calendar year, where comparative figures are referring to, as well. The weighted average number of shares was multiplied by a factor of 1.029 in each case. This factor represents the ratio of the shares outstanding after (1,052,525,375 shares) and before (1,022,540,069 shares) the settlement.

The incentivised conversion of the convertible bond 2011–2018 (see section 4.7) resulted in the issue from conditional capital of 63,532,467 IMMOFINANZ shares in total. This led to an increase of EUR 63.5 million in share capital and EUR 45.1 million in capital reserves.

The issue of the convertible bond 2017–2024 resulted in the addition of an equity component totalling EUR 21.7 million to capital reserves. Included here are roughly EUR 0.1 million of directly attributable issue costs.

IMMOFINANZ held 9,999,973 treasury shares as of 31 December 2016. On 14 March 2017 the Executive Board and Supervisory Board of IMMOFINANZ approved to utilize the authorization of the 23rd annual general meeting on 29 September 2016, in accordance with § 65 (1) no. 8 of the Austrian Stock Corporation Act, to carry out a share buyback programme for up to 20.0 million shares. A total of 10,548,076 IMMOFINANZ shares had been repurchased for EUR 20.3 million by 30 June 2017. The settlement of the legal proceedings over the review of the exchange ratio applied to the merger of IMMOEAST AG and IMMOFINANZ AG, which became legally effective on 23 May 2017, included the issue of 16,948,049 treasury shares. IMMOFINANZ held 3,600,000 treasury shares as of 30 June 2017. The cash-relevant settlement of EUR 2.0 million totalling 1,000,000 of the repurchased shares took place after the balance sheet date.

The 24th annual general meeting of IMMOFINANZ AG on 1 June 2017 approved the payment of an ordinary dividend of EUR 0.06 for the abbreviated 2016 financial year. A total of EUR 63.1 million were distributed on 7 June 2017.

Other comprehensive income of EUR -10.5 million (H1 2016: EUR 24.3 million) is attributable to the shareholders of IMMOFINANZ and EUR -1.8 million (H1 2016: EUR -0.8 million) to non-controlling interests. The share of other comprehensive income attributable to non-controlling interests resulted entirely from foreign currency translation adjustments.

A Turkish subsidiary with non-controlling interests of 35.1% distributed profits totalling EUR 11.1 million to the minority shareholder in connection with transactions to simplify the investment and financing structure of a portfolio of Turkish land reserves (see section 4.5). The resulting distribution liability was offset against outstanding financial receivables due from the minority shareholder.

Convertible bond 2007–2017

The conversion rights for the convertible bond issued by IMMOFINANZ AG were adjusted to reflect the EUR 0.06 cash dividend per share for the abbreviated 2016 financial year which was approved by the annual general meeting of IMMOFINANZ AG on 1 June 2017 (see section 4.6) and the capital increase carried out by BUWOG AG. One certificate of the convertible bond 2007–2017 with a nominal value of EUR 100,000 each currently entitles the bondholder to conversion into 13,308.36 IMMOFINANZ shares (31 December 2016: 12,909.75 shares) and 722.21 BUWOG shares (31 December 2016: 718.10 shares).

The nominal amount outstanding totalled EUR 21.4 million and remained unchanged as of 30 June 2017. This outstanding nominal value will be redeemed on 19 November 2017 if there are no conversions into the company's shares before that date.

The value of the standalone derivative from the convertible bond 2007–2017, which is recorded under other liabilities (see section 4.9), equalled EUR 0.0 million as of 30 June 2017 (31 December 2016: EUR 0.0 million).

Convertible bond 2011–2018

In order to optimise the capital structure and sustainably reduce financing costs, IMMOFINANZ carried out an incentivised conversion of the convertible bond 2011–2018 on 19 January 2017. It reduced the outstanding nominal value of the convertible bond 2011–2018 from EUR 507.1 million as of 31 December 2016 to EUR 287.3 million. The incentivised conversion resulted in the exchange of an outstanding nominal value of EUR 219.8 million for 63,532,467 new shares of IMMOFINANZ AG, 802,219 BUWOG shares and cash of EUR 58.7 million representing 2,660,362 shares of BUWOG AG. In addition, a premium of EUR 52.9 million and transaction costs of EUR 1.4 million were paid.

The conversion rights for this convertible bond were also adjusted to reflect the capital increase (see section 4.6) carried out in connection with the settlement of the legal proceedings over the review of the exchange ratio applied to the merger of IMMOEAST AG and IMMOFINANZ AG, which became legally effective on 23 May 2017. One certificate of the convertible bond 2018 with a nominal value of EUR 4.12 currently entitles the bondholder to conversion into 1.2047 IMMOFINANZ shares (31 December 2016: 1.1908 shares) and 0.0649 BUWOG shares (31 December 2016: 0.0649 shares).

The conversion rights for this convertible bond were further adjusted to reflect the EUR 0.06 cash dividend per share for the abbreviated 2016 financial year which was approved by the annual general meeting of IMMOFINANZ AG on 1 June 2017 (see section 4.6). One certificate of the convertible bond with a nominal value of EUR 4.12 currently entitles the bondholders to conversion into 1.2410 IMMOFINANZ shares. As a result of the capital increase carried out by BUWOG AG, the conversion right also currently includes conversion into 0.0653 BUWOG AG shares (31 December 2016: 0.0649 shares).

The value of the standalone derivative from the convertible bond 2011–2018, which is recorded under other liabilities (see section 4.9) equalled EUR 23.4 million as of 30 June 2016 (31 December 2016: EUR 9.4 million).

Convertible bond 2017–2024

On 24 January 2017 IMMOFINANZ issued a convertible bond through an accelerate bookbuilding process with institutional investors. The bond has a nominal value of EUR 297.2 million, an interest rate of 2.0% and a term ending on 24 January 2024. The coupon will be reduced by 50 basis points when IMMOFINANZ receives and maintains an investment grade rating from S&P, Moody's or Fitch. The conversion price was set at EUR 2.3933 per share on the issue date and adjusted to EUR 2.3637 following the capital increase (see section 4.6) carried out in connected with the settlement of the legal proceedings over the review of the exchange ratio applied to the merger of IMMOEAST AG and IMMOFINANZ AG.

The conversion rights for this convertible bond were further adjusted to reflect the EUR 0.06 cash dividend per share for the abbreviated 2016 financial year which was approved by the annual general meeting of IMMOFINANZ AG on 1 June 2017 (see section 4.6). The conversion right was reset at EUR 2.2937 per share and currently entitles the bondholders to conversion into 129,572,307 shares (as of the issue date: 124.180.003 shares) of IMMOFINANZ AG. The conversion right can be exercised up to 10 January 2024.

In addition, the convertible bond 2017–2024 includes a (non-separable) put option at the nominal value plus accrued interest as of 24 January 2022, which also determines the instrument's maturity at the present time. The issue proceeds less transaction costs of EUR 2.2 million totalled EUR 295.0 million. The equity component less proportional transaction costs equalled EUR 21.7 million and was included in equity under capital reserves.

The decline in maintenance expenses resulted, above all, from standing investments in Austria and is attributable partly to portfolio streamlining.

5.3 PROCEEDS FROM THE SALE OF PROPERTIES

The proceeds from the sale of properties in the form of asset deals were generated primarily in the Austria and Germany segments during the first half of 2017. Of these proceeds, EUR 28.1 million (H1 2016: EUR 34.3 million) are attributable to office properties in Austria, EUR 27.3 million (H1 2016: EUR 7.2 million) to retail properties in Austria and EUR 3.0 million (H1 2016: EUR 4.5 million) to Austrian standing investments assigned to the asset class other. In Germany, proceeds of EUR 47.0 million (H1 2016: EUR 0.0 million) were realised on the sale of office properties. Proceeds of EUR 0.6 million (H1 2016: EUR 5.1 million) were generated by the sale of standing investments in Romania assigned to the asset class other.

FLAC: financial liabilities measured at amortised cost

L&R: loans and receivables, ü miscellaneous other financial instruments at cost

Profit or loss on other financial instruments and proceeds on the disposal of financial instruments consist, apart from expenses of EUR -12.5 million from the incentivised conversion of the convertible bond 2011–2018, primarily of results from the measurement of derivatives. Of the total, EUR -18.1 million (H1 2016: EUR 4.7 million) is attributable to standalone derivatives from the convertible bond 2011–2018 and EUR 8.8 million (H1 2016: EUR -16.3 million) to other derivatives.

The results from the valuation of financial instruments at fair value through profit or loss include the valuation of the remaining shares in BUWOG AG at EUR 9.0 million and the valuation of real estate fund shares at EUR 2.2 million (H1 2016: EUR -18.0 million).

Information on the profit or loss from equity-accounted investments is provided in section 4.3.

6. Information on Financial Instruments

6.1 CLASSES AND CATEGORIES OF FINANCIAL INSTRUMENTS

The following table shows the carrying amount and fair value of each class of financial assets and financial liabilities defined by the company and reconciles these amounts to the appropriate balance sheet line items.

6.2 HIERARCHY OF FINANCIAL INSTRUMENTS CARRIED AT FAIR VALUE

The fair value measurement hierarchy defined by IFRS 13 covers the following three levels:

- > Level 1: quoted prices for identical assets or liabilities on an active market (without any adjustments)
- > Level 2: inputs that can be derived directly (e.g. as prices) or indirectly (e.g. based on prices) for the individual assets or liabilities and cannot be classified under Level 1
- > Level 3: inputs for assets or liabilities that are not based on observable market data

The financial instruments measured at fair value are classified under the following hierarchy levels:

All amounts in TEUR	Level 1	Level 2	Level 3	30 6 2017
				Total
Financial assets available for sale				
Real estate fund shares	–	–	468	468
Financial assets at fair value through profit or loss

Derivatives	–	–	29,599	29,599

The following table shows the reconciliation of the opening and closing balances of the financial instruments classified under Level 3:

	Real estate fund shares	Derivatives	Total
All amounts in TEUR	Q1-2 2017	Q1-2 2017	Q1-2 2017
Beginning balance	4,253	-28,414	-24,161
Recognised in the consolidated income statement	2,486	-9,268	-6,782
Disposals	-2,549	4,860	2,311
Ending balance	4,190	-32,822	-28,632

The above table includes results of EUR -6.8 million that are included in the consolidated income statement and attributable in full to financial instruments that were held at the end of the first half of 2017. These amounts were presented under other financial results.

Valuation procedures and input factors used to determine the fair value of financial instruments

Level	Financial instruments	Valuation method	Major input factors	Major non-observable input factors
3	Real estate fund shares	Net present value methods	Discount rate, expected principal repayments and dividends	Discount rate: 8.50% to 14.25%
3	Derivatives (interest rate swaps)	Net present value methods	Interest rate curves observable on the market, probability of default, loss given default, exposure at default	Credit margin: 1.50% to 3.50%
3	Derivatives (from convertible bonds)	Capital market and net present value methods	Market prices of convertible bonds, interest rate curves observable on the market, probability of default, loss given default, exposure at default	Credit margin: 3.54%

IMMOFINANZ calculates the fair value of derivatives by discounting the future cash flows based on a net present value method. The interest rates used to discount the future cash flows are based on an interest curve that is observable on the market. The following three parameters are required to calculate the credit value adjustment (CVA) and the debt value adjustment (DVA): the probability of default (PD), the loss given default (LGD) and the exposure at default (EAD). The probability of default is derived from the credit default swap (CDS) spreads of the respective counterparty. Derivatives with a positive fair value represent receivables for IMMOFINANZ; in these cases, a CVA calculation is used to calculate the amount of the receivable. One parameter for this calculation is the probability of default for the counterparties. IMMOFINANZ concludes contracts with over 30 financial institutions, and observable CDS spreads are available on the market for many of them. In exceptional cases, average branch benchmarks are used as a substitute for unavailable spreads. These benchmarks represent Level 1 and 2 input factors on the fair value measurement hierarchy. Derivatives with a negative fair value represent liabilities for IMMOFINANZ; in these cases, a DVA calculation is used to calculate the amount of the liability and IMMOFINANZ's own probability of default must be determined. IMMOFINANZ generally concludes derivatives at the level of the property company that manages a particular property. Neither observable market CDS spreads, nor benchmarks are available for these property companies. Credit margins are therefore used to estimate CDS spreads which, in turn, form the basis for deriving the probability of default. The credit margin for IMMOFINANZ is determined in a two-step procedure. The first step involves the calculation of an average margin based on previously concluded credit agreements and term sheets, whereby the time horizon for the applied margins equals 12 months. The second step involves obtaining indicative credit margin offers from banks and averaging these values with the margins from the credit agreements and term sheets. These offers are grouped by country and asset class. The individual property companies that have concluded financial instruments are assigned to a group based on country and asset class. The plausibility of the calculated credit margins is also verified by comparison with external market reports. This procedure results in market-conform credit margins that can be used as estimates for valuing the company's own credit risk. These input factors represent Level 3 on the IFRS 13 measurement hierarchy. The loss given default (LGD) is the relative value that would be lost on default. IMMOFINANZ uses an ordinary market default rate to calculate the CVA and DVA. The exposure at default represents the expected amount of the asset or liability at the time of default. The calculation of the exposure at the time of default is based on a Monte Carlo simulation.

For net present value methods, an increase in the discount rate, exit yield or credit spread leads to a reduction in fair value. In contrast, fair value is increased by a reduction in these input factors.

The valuation of default risk includes assumptions for the probability of default, loss rate and the outstanding amount at the time of expected default. An increase in the probability of default and the loss rate will reduce the fair value of a derivative with a positive outstanding amount (receivable) and reduce the liability for a derivative with a negative outstanding amount (liability). A decrease in the probability of default and the loss rate leads to the opposite effect.

7. Transactions with Related Parties

Business transactions with equity-accounted investments led to the following amounts in the consolidated interim financial statements of IMMOFINANZ for the first half of 2017:

All amounts in TEUR	30 6 2017	31 12 2016

IMMOKRON Immobilienbetriebsgesellschaft m.b.H. distributed profits totalling EUR 17.7 million in the second quarter of 2017. The resulting distribution receivable was offset against liabilities due to the joint venture.

There were no reportable transactions between IMMOFINANZ and related persons during the first half of 2017.

8. Subsequent Events

The 5.25% corporate bond 2012-2017 with a nominal value of EUR 100.0 million was repaid in full as scheduled on 3 July 2017.

The signing for the sale of six office properties and the remaining unsold residential properties in the first construction section of the *Gerling Quartier* plus a currently vacant office property on the Hohenzollernring in Cologne took place on 24 July 2017. The transaction prices and current estimates for the outstanding costs for construction, the repair of deficiencies and project completion were reflected in the property valuation as of the balance sheet date. IMMOFINANZ currently assumes the closing to take place by year-end 2017.

Statement by the Executive Board

We confirm to the best of our knowledge that these consolidated interim financial statements of IMMOFINANZ as of 30 June 2017, which were prepared in accordance with the rules for interim financial reporting defined by International Financial Reporting Standards (IFRS), give a true and fair view of the assets, liabilities, financial position and profit or loss of the Group in line with stock exchange regulations. We also confirm to the best of our knowledge that the Group management report gives a true and fair view of important events that occurred during the first six months of the financial year and their impact on these consolidated interim financial statements as well as of the principal risks and uncertainties for the remaining six months of the financial year and any reportable related party transactions.

Disclaimer

We have prepared this report and verified the data herein with the greatest possible caution. However, errors arising from rounding, transmission, typesetting or printing cannot be excluded. This report contains assumptions and forecasts that were based on information available at the time this report was prepared. If the assumptions underlying these forecasts are not realised, actual results may differ from the results expected at the present time. Automatic data processing can lead to apparent mathematical errors in the rounding of numbers or percentage rates. This report is published in German and English, and can be downloaded from the investor relations section of the IMMOFINANZ website. In case of doubt, the German text represents the definitive version. This report does not represent a recommendation to buy or sell shares in IMMOFINANZ AG.

Rounding differences may result from the use of automatic data processing equipment for the addition of rounded amounts and percentage rates.
