Observation of provisions regarding the spending of the funds from the corporate bond issue

Pursuant to the Prospectus for admission to trading on a regulated market of the securities from the corporate bond issue, the Company shall use the accumulated funds predominantly for acquisition of real estate properties (plots) within the city of Sofia, that are appropriate for the construction of office areas in the core centre and/or in the new business centre, and/or for the construction of compound multifunctional buildings (with residential and commercial areas). Part of the accumulated funds can be used also for financing the projection of the construction works on the plots that should be purchased in compliance with the parameters in the preceding sentence.

As of the date of the present report the Company has not acquired definitively land plots with funds accumulated through the bond issue. During the fourth quarter of 2007 the Company realized extraordinary revenue from default on a preliminary agreement. That revenue can be treated as related to the corporate bond issue due to the fact that the default was due to a preliminary contract for purchase of a land plot in Sofia, on which the seller did not manage to fulfill his obligations and that's why he paid the negotiated forfeit.

In the end of 2007 the Company concluded a new preliminary agreement for purchase of a land plot facing Todor Alexandrov Blvd. The price that the Company should pay was EUR 600 per sq.r. built up area. The term of the preliminary agreement expired on June 30, 2008. As of today the agreement has been terminated.
