“Basis for qualified opinion

The Statement of account of the Company as of 31 December 2019 presents trade and other receivables in the amount of BGN 5 039 thous. as disclosed in Notes 10. Trade receivables, 12. Other receivables and 33. Receivables from Related parties. The Company has over 79% overdue, unimpaired receivables of over one year. In our opinion, concerning receivables standing at BGN

3 035 thous., the value of receivables exceeds the value of the net assets of the debtors, which gives rise to uncertainty whether the Company will be able to collect the full amount of its receivables.

As a result, we did not succeed in obtaining sufficient assurance that the carrying amount of the receivables presented in the Statement of account as of 31 December 2019 does not exceed their recoverable value. For this reason, we are not in a position to determine whether there are and what are the effects of the receivables presented like that, on the net assets of the Company as of 31 December 2019.

We have performed our audit in conformity with the International Standards on Auditing (ISA). Our responsibilities according to these standards are described in the section of our Report - Auditor's Responsibility for the Audit of the Financial Statements.

In our opinion, concerning receivables in the amount of BGN 4 586 thous., the value of receivables exceeds the value of the net assets of the debtors, which gives rise to uncertainty whether the Company will be able to collect the full amount of its receivables.
