For Shareholders and the Supervisory Board of Arctic Paper S.A.

We have been engaged to assess the attached remuneration report of Arctic Paper S.A. (Company) with its registered office in Kostrzyn nad Odrą for the year 2023 as regards the completeness of the information included therein, required pursuant to Article 90g sections 1-5 and 8 of the Act of 29 July 2005 on public offering, conditions governing the introduction of financial instruments to organised trading and on public companies (consolidated text: Journal of Laws of 2022, item 2554) (Public Offering Act).

Identification of the criteria and description of the subject matter of the engagement

The remuneration report was prepared by the Company's Supervisory Board in order to meet the requirements of Article 90g section 1 of the Public Offering Act. The applicable requirements for the remuneration report are set out in the Public Offering Act.

The requirements described in the preceding sentence set out the basis for the preparation of a remuneration report and, in our opinion, constitute appropriate criteria for us to make a conclusion that provides reasonable assurance.

In accordance with the requirements of Article 90g section 10 of the Public Offering Act, a remuneration report shall be assessed by a statutory auditor as regards the inclusion of information required under Article 90g section 1-5 and 8 of the Public Offering Act. This report fulfils the above requirement.

The statutory auditor's assessment which forms the basis for us to make a conclusion that provides reasonable assurance, as referred to in the preceding sentence, shall be understood as an assessment of whether the scope of information presented in the remuneration report is complete, in all material respects, and whether the information has been disclosed in sufficient detail required by the Public Offering Act.

Responsibility of the Supervisory Board Members

In accordance with the Public Offering Act, Members of the Company's Supervisory Board are responsible for preparing a remuneration report in accordance with applicable laws, in particular for the completeness of the report and for the information contained there.

Our objective was to assess the completeness of the information contained in the attached remuneration report against the criterion set out in the *Identification of the criteria and description of the subject matter of the engagement* section and to express, on the basis of the evidence obtained, an independent conclusion on the performed reasonable assurance engagement.

The standard imposes on a statutory auditor an obligation to plan and perform procedures in such a manner as to obtain reasonable assurance that a remuneration report has been prepared in accordance with the specified criteria.

Reasonable assurance means a high level of assurance, but it does not guarantee that an engagement performed in accordance with NSAE 3000 (R) would always detect an existing material misstatement.

The selection of the procedures depends on the statutory auditor's judgement, including their estimation of the risks of material misstatement, whether due to fraud or error. When assessing the risk, the statutory auditor considers internal control associated with the preparation of a complete report in order to plan the relevant procedures which are to provide the auditor with sufficient and appropriate evidence. The remuneration report was not audited within the meaning of the National Auditing Standards. During our assurance procedures, we did not audit or review the information used to prepare the remuneration report and, therefore, we are not responsible for issuing or updating any reports or opinions on the Company's historical financial information.

We believe that the evidence we have obtained provides sufficient and appropriate basis for us to express the following conclusion.

9. Assessment of the Company's condition

It was yet another year during which Arctic Paper had to operate in a dynamically changing economic landscape. The economic situation, which was very favorable for the Company in 2022, changed dramatically, leading to a notable decline in demand and results across the entire industry.

Thanks to swift adjustment actions, Arctic Paper achieved very good results even with significantly reduced production.

The achieved EBITDA level is the second-best result in the Group's history.

The Group's robust financial position, strong balance sheet and high level of cash flow. This presents a twofold benefit, as it both reduces financial costs, especially at the current high interest rate levels, and enables the implementation of an ambitious investment plan related to the implementation of subsequent stages of the 4P strategy.

The majority of expenditures are allocated to the development of two new pillars - energy and packaging. In just a few months (June 2024), a photovoltaic installation with a capacity of 17 MW will be commissioned at the Kostrzyn paper mill, and another one (with a capacity of 9 MW) is in the development phase. These initiatives will significantly reduce the carbon footprint of production.

The consistent implementation of the 4P strategy and the resultant accomplishments reaffirm that the Arctic Paper Group is a reliable and solid partner for its clients while simultaneously meeting the expectations of its shareholders.
