CHAPTER V. REMUNERATION PRINCIPLES AND BASIC INFORMATION ON THE PRINCIPLES OF ENTERING INTO CONTRACTS WITH MEMBERS OF THE MANAGEMENT BOARD.

1. General information

- 1) The detailed principles which shape the remuneration of the Members of the Management Board are defined by the Supervisory Board in compliance with the Remuneration Policy.
- 2) The Supervisory Board defines the detailed principles of remuneration of the Members of the Management Board by creating templates for the contracts entered into by the Company with the Members of the Management Board.
- 3) The total remuneration of a Member of the Management Board is composed of a fixed part, comprised of monthly basic remuneration (**Fixed Remuneration**) and a variable part, comprised of supplementary remuneration for the Company's financial year (**Variable Remuneration**).
- 4) Variable Remuneration may not exceed 100% of the Fixed Remuneration due for the prior financial year.

2. Fixed components of the remuneration of Members of the Management Board

- 1) The Fixed Monthly Remuneration for individual members of the Company's Management Board is within a range of seven- to fifteen times the assessment basis, as described in art. 1 sec. 3 point 11 of the Act on the principles of setting remuneration.
- 2) The Supervisory Board sets the amount of the Fixed Remuneration within the range set forth in point 1 above.

3. Variable components of the remuneration of Members of the Management Board

- 1) Variable Remuneration depends on the level of achievement of the management goals set for each of the Company's financial years.
- 2) In particular, the following may serve as management goals:
 - a) an increase in the Company's value;
 - b) achievement of the tasks and initiatives described in the Company's Strategy;

- c) optimisation of the Company's operating costs;
 - d) achievement of the EBITDA level set forth in the Budget for a given financial year;
 - e) maintaining the ratios referred to in borrowing agreements (Net debt/EBITDA ratio);
 - f) improvement of economic-financial ratios other than those indicated in letters d-e;
 - g) an increase in profit for the period or EBITDA, or a positive change in the indicator growth rate of one of these results;
 - h) achievement of or change in the volume of production or sales;
 - i) achievement of or change in specified ratios, in particular profitability, financial liquidity, management efficiency or solvency;
 - j) improvement in occupational health and safety;
 - k) reduced environmental impact, including the advancement of goals set in the Climate Policy;
 - l) advancement of goals and impacts other than the ones stipulated in letters j-k, related to the sustainable development (ESG);
 - m) ensuring equal treatment of women and men in the workplace.
- 3) The management goals prerequisite to gaining the right to receive Variable Remuneration are as follows:
- a) the shaping and application of the principles of remuneration of members of the management and supervisory bodies of subsidiaries in a manner which is consistent with the principles set forth in the Act on the principles of setting remuneration;
 - b) execution of the obligations referred to in art. 17-20, art. 22 and art. 23 with due regard to art. 18a and art. 23a of the Act of 16 December 2016 on the principles of state assets management.
- 4) The management goals, the weight of these goals and objective and measurable criteria (ratios) of their achievement and settlement (KPI) for individual Members of the Management Board, are defined by the Supervisory Board.
- 5) Variable Remuneration for the prior financial year is paid to a given Member of the Management Board, following the approval by the General Meeting of the Management Board's Report on the activities of the Company and the financial statements for the prior financial year, and the granting of approval by the General Meeting for the given Management Board Member's performance of duties in the prior financial year, following submission to the Supervisory Board of a report on the achievement of the management goals in the prior financial year and contingent upon the Supervisory Board's confirmation of their achievement. The Supervisory Board, in determining the degree of achievement of the management goals, sets the amount of

Variable Remuneration to be paid to a given Member of the Management Board.

- 6) The Company has the right to claims for a return of the Variable Remuneration paid if, subsequent to its payment, it is determined that it was paid to the Member of the Management Board based on data which turned out to be false.

4. **Criteria determining the granting of the variable components of remuneration as respects the financial and non-financial results (Criteria)**

- 1) The management goals and the criteria for achieving these goals, as regards the financial and non-financial results being the basis for setting Variable Remuneration, are defined by the Supervisory Board in such a way as to support the advancement of the strategy of the KGHM Group. In particular, they should be related to the strategic goals within individual strategic pillars/areas, including key performance indicators associated with them.
- 2) Moreover, the adopted criteria:

 - b) motivate the Members of the Management Board to achieve the Company's business strategy and interests;

6. **Methods applied in determining to what extent the criteria as regards financial and non-financial results in terms of granting the variable components of remuneration were fulfilled.**

- 1) The Remuneration Committee conducts a preliminary assessment of the fulfilment of the criteria as regards financial and non-financial results in terms of granting the variable components of remuneration to individual Members of the Management Board in the evaluated financial year and submits its recommendations in this regard.
- 2) The Supervisory Board confirms fulfilment of the criteria as regards financial and non-financial results in terms of granting the right to Variable Remuneration to individual Members of the Management Board in the evaluated financial year, and sets the amount of Variable Remuneration to be granted to the Member of the Management Board.

7. **Additional components of remuneration and other monetary and non-monetary benefits to which the Members of the Management Board are entitled; costs incurred by the Company related to serving in the function.**
 - 1) The Supervisory Board, in the contract with the Member of the Management Board, defines the scope and the principles for making available technical devices and assets belonging to the Company which are required to perform the function, and may also establish limits or the means for determining the costs to be incurred by the Company in making available such devices and assets, as well as their utilisation, by a Member of the Management Board for business purposes.

 - 7) The Members of the Management Board may participate in the Employee Pension Program (EPP) under the terms of the Collective Agreement entered into in Lubin on 27 June 2005 between KGHM Polska Miedź S.A. and Employee Representation involving the Employee Pension Program. The EPP is conducted in the form of employee contributions to an investment fund. The amount of the basic contribution financed by KGHM is 7% of

If a Member of the Management Board joins the EPP, the amount of Fixed Remuneration of such a Member of the Management Board is set together with the amount of the basic contribution to the EPP. - 5) The Contract reflects the obligation for the Member of the Management Board to announce any intent to serve in a function in the body of another commercial company or to acquire shares thereof, and also may provide for prohibiting serving in a function in the body of any other commercial
