## **§2.**

The amendment to the Articles of Association described in § 1 above becomes effective as of its registration in the Register of Entrepreneurs of the National Court Register.

## **§3.**

1. The rationale behind the adoption of this Resolutions is to equip the Company

with a flexible instrument to swiftly and effectively obtain financing for the purpose of providing funds to cover the costs of day-to-day operations, including the costs of production and release of its own games developed by development teams operating within the structures of the Company group.

2. The Management Board may use this authorization to increase the share capital within the limits of the authorized capital afforded in this Resolution to adjust the size and timing of share or subscription warrants issues effected by the Company to the identified business opportunities in the capital market as well as the Company's and its group's current needs. This instrument facilitating the share capital increase and share or subscription warrants issue processes will significantly reduce the time necessary to raise the necessary funds, and reduce its costs.

#### **§4.**

1. Attached to this Resolution is a written opinion of the Management Board setting out the reasons for authorizing the Management Board to exclude preemptive rights of the Company's current shareholders in full or in part upon consent of the Supervisory Board and the manner of determining the issue price of the Company's shares in connection with the authorization granted to the Management Board to increase the Company's share capital within the limits of the authorized capital.
2. The Annual General Meeting has reviewed the substantiation for establishing the authorized capital presented in § 3 above and the Management Board's opinion setting out the reasons for authorizing the Management Board to exclude preemptive rights of the Company's current shareholders and the manner of determining the issue price of the Company's shares, and it approves the position of the Management Board, considers it reasonable and therefore compliant with the requirements of the Commercial Companies Code.

#### **§5.**

The Annual General Meeting authorizes the Supervisory Board to adopt an amended and restated text of the Articles of Association incorporating the amendments contemplated in §1 above, as soon as they are registered in the Register of Entrepreneurs of the National Court Register.

## limits of the authorized capital

### OPINION OF THE MANAGEMENT BOARD OF PCF GROUP S.A.

of 26 May 2025

**setting out the reasons for authorizing the Management Board to exclude preemptive rights of the Company's current shareholders in full or in part upon consent of the Supervisory Board and the manner of determining the issue price of the Company's shares in connection with the authorization granted to the Management Board to increase the Company's share capital within the limits of the authorized capital**

Pursuant to Article 447 § 2 in conjunction with Article 433 § 2 of the Act of 15 September 2000 - Commercial Companies Code (consolidated text in Dziennik Ustaw of 2024, item 18 as amended) (the **"Commercial Companies Code"**), the Management Board of PCF Group S.A. with its registered office in Warsaw (the **"Company"**) adopted this opinion on 26 May 2025 with reference to the item on the agenda of the General Meeting of the Company scheduled for 23 June 2025 which provides for the adoption of a resolution on amendments to the Articles of Association of the Company and authorization of its Management Board to increase the share capital within the limits of the authorized capital and issue subscription warrants vesting the right to subscribe for shares issued within limits of the authorized capital, with the authority of the Management Board to exclude, subject to the Supervisory Board's consent, preemptive rights of the Company's current shareholders in full or in part with respect to the shares or subscription warrants issued within limits of the authorized capital (the **"Authorized Capital"**).

#### **1. The authorization for the Management Board to increase the share capital of the Company within limits of the authorized capital, with the authorization of the Management Board to exclude current shareholders' preemptive rights in full or in part, subject to the Supervisory Board's consent**

The proposed amendments to the Company's Articles of Association and establishment of the Authorized Capital as an instrument allowing the Management Board to exclude preemptive rights of the Company's current shareholders in full or in part upon consent of the Supervisory Board are related to the need to ensure financing of the Company's operations in the scope of the continued production and independent release of video games based on proprietary intellectual property owned by the Company group (the **"Group"**), developed by the development teams operating within the Group's structures, namely the Victoria (the "Lost Rift" video game) and Bifrost projects.

Given the limited ability to raise adequate debt financing, raising equity capital in the capital market may be the most effective form of procuring capital for those needs for the Company. Given the dynamic character of the game development industry and the capital market, a flexible instrument such as the Authorized Capital will enable the Management Board to efficiently raise financing when conditions on these markets are most favorable. Furthermore, enabling the Management Board to exclude the preemptive rights of the Company's existing shareholders in whole or in part upon consent

of the Supervisory Board allows the Company to raise additional capital much more swiftly and efficiently than the alternative process of increasing the share capital with pre-emptive rights preserved, particularly in light of current sentiment in the stock markets, and at the same time this form would require preparing and obtaining approval for a mandatory prospectus, with no obvious advantages of implementing such a scenario. If the Management Board decides to exclude pre-emptive rights to shares or subscription warrants, the proposed amendments to the Company's Articles of Association and the introduction of the Authorized Capital mechanism afford the Priority Right to the holders of a certain number of shares as of the Preference Date, which will let those shareholders maintain their existing share in the Company while achieving the objectives described above.

The funds raised from the equity instruments issuable within limits of the Authorized Capital will be used primarily to cover the costs related to the continued production and independent release of the Victoria project (the "Lost Rift" video game) and the Bifrost project, carried out by the Group within the so-called self-publishing model, i.e. by the Group as a publisher, using the Group's own funds. The Management Board believes that both projects have high commercial potential, which in the future, once they are released, may translate into significant financial benefits for the Group, such as sales proceeds, as well as non-financial benefits, such as an increase of the studio's reputation, which as a result will also have a positive impact on the Group's image and contribute to creating value for all its stakeholders.

In view of the foregoing, the Management Board believes that the creating the ability to issue shares or subscription warrants within limits of the Authorized Capital while excluding preemptive rights of all the Company's existing shareholders in full or in part upon consent of the Supervisory Board is in the interest of the Company. Therefore, the Management Board gives its favorable opinion on the issuance of shares on the terms proposed in the resolution of the General Meeting.

## **2. The method of setting the issue price**

According to the proposed resolution of the General Meeting, consent of the Supervisory Board is required for the adoption of any resolution of the Management Board determining the issue price or the manner of determining the issue price of shares issued within the Authorized Capital. The Management Board believes that given the maximum three-year period of the authorization to increase the Company's share capital within the limits of the Authorized Capital and the conceivable variety of the terms of business transactions, it is reasonable that the Management Board should seek the consent of the Supervisory Board to establish the issue price or the manner of establishing the issue price of the issued shares in the manner proposed by the Management Board in each case. Such a mechanism of aligning the positions of the Company's corporate bodies will best protect the interests of the Company's shareholders. Under the vested authority, the Company's Management Board will be able to freely determine the terms and conditions of the issued subscription warrants, which includes deciding whether to issue them for a consideration or free of charge, and to determine their issue price or a method of establishing the issue price if the

subscription warrants are issued for a consideration. However, the Supervisory Board's consent will be required to determine the issue price or the method of determining the issue price of shares subscribed for in exercise of the subscription rights arising from subscription warrants.

### **3. Conclusions**

In view of the premises set out above, the Management Board recommends that the General Meeting adopts the resolution regarding the Authorized Capital.

**Grounds for the resolution:** The rationale behind the adoption of this resolution is to equip the Company with a flexible instrument to swiftly and effectively obtain financing for the purpose of providing funds to cover the costs of day-to-day operations, including the costs of production and release of its own games developed by development teams operating within the structures of the Company group. The Management Board may use this authorization to increase the share capital within the limits of the authorized capital afforded in this Resolution to adjust the size and timing of share or subscription warrants issues effected by the Company to the identified business opportunities in the capital market as well as the Company's and its group's current needs. This instrument facilitating the share capital increase and share or subscription warrants issue processes will significantly reduce the time necessary to raise the necessary funds, and reduce its costs.
