## **1 General information**

---

Coal Energy S.A. (hereafter the "Company") was incorporated on 17 June 2010 and organised under the laws of Luxembourg as a Société anonyme for an unlimited period.

The registered office of the Company is established in Luxembourg, 205, route d'Arlon L-1150 Luxembourg and the Company number with the Registre de Commerce is B 154144. The financial year of the Company starts on 1 July and ends on 30 June of each year.

The purpose of the Company is the holding of participations, in any form whatsoever, in Luxembourg and foreign companies and any other form of investment, the acquisition by purchase, subscription or in any other manner as well as the transfer by sale, exchange or otherwise of securities of any kind and the administration, control and development of its portfolio.

The Company may further guarantee, grant loans or otherwise assist the companies in which it holds a direct or indirect interest or which form part of the same group of companies as the Company.

The Company also prepares consolidated financial statements, which are published according to the Luxembourg legal requirements.

## **2 Summary of significant accounting policies**

---

### **Basis of preparation**

The annual accounts of the Company are prepared in accordance with Luxembourg legal and regulatory requirements.

Accounting policies and valuation rules follow the historical cost convention and are, besides the ones laid down by the law, determined and applied by the Board of Directors.

### **Financial fixed assets**

Shares in affiliated undertakings and participating interests are valued at purchase price including the expenses incidental thereto.

Loans to affiliated undertakings, participating interests and other loans are valued at nominal value including the expenses incidental thereto.

In case of a durable depreciation in value according to the opinion of the Board of Directors, value adjustments are made in respect of fixed assets, so that they are valued at the lower figure to be attributed to them at the balance sheet date. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

### **Debtors**

Debtors are valued at their nominal value. They are subject to value adjustments where their recovery is compromised. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

### **Prepayments and accrued income**

This asset item includes expenditures incurred during the financial period but relating to a subsequent financial period.

### **Provisions**

Provisions are intended to cover losses or debts of which the nature is clearly defined and which, at the date of the balance sheet, are either likely to be incurred or certain to be incurred but uncertain as to their amount or as to the date on which they will arise.

Provisions may also be created in order to cover charges which have their origin in the financial period under review or in a previous financial period, the nature of which is clearly defined and which at the date of the balance sheet are either likely to be incurred or certain to be incurred but uncertain as to their amount or as to the date on which they will arise.

### **Accruals and deferred income**

This liability item includes income received during the financial period but relating to a subsequent financial period.

### **Value adjustments**

Value adjustments are deducted directly from the related asset.

### **Foreign currency translation**

The Company maintains its accounts in US Dollar ("USD"). Transactions expressed in currencies other than USD are translated into USD at the exchange rate effective at the time of the transaction.

Formation expenses and fixed assets expressed in currencies other than USD are translated into USD at the exchange rate effective at the time of the transaction. At the balance sheet date, these assets remain translated at historical exchange rates.

Cash at bank and all items subject to fair value valuation are translated at the exchange rate effective at the balance sheet date. Exchange losses and gains are recorded in the profit and loss account of the period.

Other assets and liabilities are translated separately respectively at the lower or at the higher of the value converted at the historical exchange rate or the value determined on the basis of the exchange rates effective at the balance sheet date. The unrealised exchange losses are recorded in the profit and loss account. The realised exchange gains are recorded in the profit and loss account at the moment of their realisation. Consequently, only realised exchange gains and losses and unrealised exchange losses are reflected in the profit and loss account.

Where there is an economic link between an asset and a liability, these are valued in total according to the method described above and only the net unrealised loss is recorded in the profit and loss account.

### **Going concern**

The annual accounts are prepared on a going concern basis even though the accumulated losses exceed 75% of the corporate capital of the Company. As a result the Company is depending on the ongoing financial support of the Group.
