### ***Content of the reservation***

Grant Thornton Polska sp. z o.o. sp. k. ("Statutory auditor") made the following reservation in the independent statutory auditor's report on the audit of the annual consolidated financial statements as at June 30, 2021:

*In item II.4 of Note 2.3 to the consolidated financial statements, the Management Board informed about the actual loss of control over Prohuman 2004 Kft with its registered office in Hungary and its capital group (Prohuman, Prohuman Group, respectively), including in the consolidated financial statements the effects of the identified loss of control using the latest available data of the Prohuman Group covering the period from January 1, 2020 to September 30, 2020 and using the equity method to measure the shares of the Prohuman Group in subsequent periods. In addition, in this note, the Management Board informed that the financial result of the Prohuman Group for the fourth quarter of 2020 and for the first half of 2021 was not included in the consolidated financial statements due to the failure to receive data from the Prohuman Group.*

*The data of the Prohuman Group as at September 30, 2020 has not been audited by a statutory auditor. We were unable to obtain appropriate and sufficient audit evidence to confirm that the valuation of the Prohuman Group's assets and liabilities as at September 30, 2020 does not require any adjustments. In addition, due to the lack of data, we are not able to estimate the possible impact on the consolidated financial statements of the recognition of the Capital Group's share in the result of the Prohuman Group for the fourth quarter of 2020. The value of the shares in the Prohuman Group in the Company's consolidated financial statements is PLN 221 million.*

### ***Management Board's comment on the statutory auditor's reservation***

The Management Board of Work Service SA, in the current report No. 17/2021 of March 31, 2021, informed that as a result of the ongoing corporate dispute in Prohumán, caused by the unfavorable attitude of Profólió Projekt Tanácsadó Kft. with its seat in Budapest, which is a minority shareholder Prohumán ("Profólió") and the related three (out of four) Managing Directors in Prohumán - difficulties in the possibility of effective ownership and management influence on Prohumán, as well as on the capital group it creates ("Prohumán Group"), on March 31, 2021, Work Service SA has become convinced that there is a actual loss of control over Prohumán in accordance with the International Financial Reporting Standards ("IFRS").

- 6) Present all the data and adjustments described in items 1-5 above in the financial statements in the part relating to continuing operations, together with financial data of other entities that do not constitute discontinued operations.

The Issuer also points out that the described situation does not affect the financial situation, including the Issuer's liquidity, or the individual data of Work Service S.A. T However, it should be clearly emphasized that the actions and omissions harmful to the interests of Work Service S.A., which were taken by those in conflict with Work Service S.A.
