28-02-2019

CONFIRMATION OF RESPONSIBLE PERSONS

In accordance with the Law on Securities of the Republic of Lithuania and the Rules on the Information Disclosure approved by the Board of the Bank of Lithuania, we hereby confirm that, to the best of our knowledge, the attached interim consolidated financial statements of AUGA group, AB for the twelve months' period ended 31 December 2018, have been prepared in accordance with the International Financial Reporting Standards, give a true and fair view of the assets, liabilities, financial position and profit or loss and cash flow of AUGA group, AB group.

ENCLOSURE: unaudited interim consolidated financial statements of AUGA group, AB for the twelve months' period ended 31 December 2018.

General Manager

Linas Bulzgys

Chief Financial Officer

Martynas Repečka

(All amounts are in EUR thousand, unless otherwise stated)

I. GENERAL INFORMATION

Accounting period covered by the Report

The report covers 12 months period ended 31 December 2018.

Key data on the issuer

Name of the company: AUGA group, AB (hereinafter – AUGA group, AB or the Company)

Share capital: EUR 65,950,713.08

Address of headquarters: Konstitucijos av. 21C, Quadrum North, LT-08130, Vilnius, Lithuania

Telephone: +370 5 233 53 40 Fax: +370 5 233 53 45

E-mail address: info@auga.lt
Website: www.auga.lt

Legal entity form: Legal entity, joint stock company

Place and date of registration: 25 June 2003, Vilnius

Register code: 126264360

Registrant of the Register of Legal entities: VĮ Registrų centras

(All amounts are in EUR thousand, unless stated otherwise)

II. MANAGEMENT REPORT

During the twelve months of 2018, AUGA group, AB and its subsidiaries (hereinafter - the Group) sales revenue amounted to EUR 54.79 million, a 12% increase compared to the same period of 2017, when it was EUR 48.78 million.

The Group's gross profit for the twelve months of 2018 amounted to EUR 3.74 million and was lower compared to the same period of 2017 (gross profit for the first nine months of 2017 - EUR 14.93 million).

During the twelve months period of 2018, the Group incurred EUR 6.26 million net loss (EUR 5.02 million net profit was earned in the same period last year).

Main financial results, million EUR	12 months of 2018	12 months of 2017	Change, %
Revenues	54.79	48.78	12%
Gross profit (loss)	3.74	14.93	-75%
Net profit (loss)	-6.26	5.02	-125%
EBITDA	3.30	14.19	-77%

The Group's EBITDA¹ for the twelve months of 2018, eliminating one-time transaction, in particularly, the one-off costs related to the termination of the acquisition of shares of UAB Arginta Engineering, amounted to EUR 3.30 million. Compared to the same period of 2017, EBITDA indicator was EUR 14.19 million.

Crop segment overview

Crop growing segment sales revenue for the twelve months of 2018 amounted to EUR 17.52 million compared to EUR 14.20 million for the same period in 2017 (23% increase). Crop growing segment cost of sales for the twelve months of 2018 was EUR 17.99 million versus EUR 13.77 million for the twelve months of 2017. Total agricultural produce inventory write-offs and impairment during the twelve months of 2018 amounted to EUR 1.40 million compared to EUR 0.30 million during the twelve months of 2017. During the year of 2017 part of agricultural produce inventory write-offs and impairment were accounted in gain (loss) on revaluation of agricultural produce at point of harvest. For better disclosure purposes all agricultural produce inventory write-offs and impairment were accounted separately during the year of 2018. The total result of sales of agricultural produce was EUR 1.88 million loss for the twelve months of 2018 (EUR 0.13 million profit for the same period in 2017).

Cash crop harvest results in the season of 2017/2018

As it was already discussed in Group's consolidated interim financial statements for nine months ended 30 September 2018, the 2017/2018 season was challenging. Due to the rainy autumn in 2017 relatively small area of winter crops was planted. As a result, the area of summer crops increased significantly from about 10 thousand ha in the season of 2016/2017 to 21.5 thousand ha in the season of 2017/2018. Based on the results of the season of 2016/2017, when legume crops were highly successful in terms of profitability as well as crop rotation requirements, half of all summer cash crops (about 10.7 thousand ha) in 2017/2018 consisted of leguminous crops - peas and beans.

The summer of 2018 was arid and in most regions of Lithuania there was a shortage of rain. In several dozen regions it was recorded as a dangerous meteorological phenomenon. The shortage of rain had a significant negative impact on the crop yields in most of the Group's cultivated lands. After harvesting, it can be stated that the mostly adverse effect of the drought was on summer legume crops - peas and beans, which yields in the 2017/2018 season were more than twice lower than in season 2016/2017. The large area dedicated to these crops had a significantly negative effect on the results of the harvest of 2017/2018. Below is a comparison of the two main crops grown by the Group - wheat and legumes.

Consolidated interim financial statements for 12 months period ended 31 December 2018 (unaudited)

 $^{^1}$ EBITDA = net cash flow from operating activities before changes in working capital, as it is disclosed in cash flow statement, including gain (loss) on changes in fair value of biological assets.

(All amounts are in EUR thousand, unless stated otherwise)

Wheat yield in Lithuania, t/ha

Legumes yield in Lithuania, t/ha

NOTE: The data of LT organic farms in 2018 has not yet been published. Reference: Lithuanian Statistics Department, data of the survey of the activities of Lithuanian agricultural producers included in the Farm Accountancy Data Network (FADN), the Group's data.

Changes in yields of other cash crops in the season of 2017/2018 compared to the season of 2016/2017 were mixed. For instance, the yields of sugar beets, soya, corn were higher, while rapeseed, oats, rye and other were lower. Significant increase in sugar beets yields compensated losses in yields of other cash crops resulting in overall average harvest yield of other cash crops to around 5.10 t/ha in the season of 2017/2018 versus 4.97 t/ha in the season 2016/2017.

Despite the significant decrease in cash crop yields in the season of 2017/2018, the fair value of cash crops totalled to EUR 22.16 million and was slightly above EUR 21.47 million reached in season 2016/2017 mainly due to increased cash crops area - 28.5 thousand ha versus 18.8 thousand ha.

In accordance with International Accounting Standards (Standard 41 Agriculture) agricultural produce is measured at fair value at its point of harvest which reflects the expected market price of the produce, eliminating related sales costs. The difference between the fair value of the harvest and the total costs incurred when growing the harvest is represented in profit (loss) statement line Gain (loss) on changes in fair values of biological assets and on recognition at fair value of agricultural produce at point of harvest.

Due to such accounting treatment market price estimation is very important criterion for assessing the fair value of the harvest. It should be noted that at the time of the publication of the financial statements for the twelve months of 2018, most of the 2017/2018 season harvest has already been sold or contracted at fixed prices for the sale of the crops, so the fair value of the crops can be measured reliably. Below is a comparison of the cash crops prices at which the harvest was evaluated (at fair value) in the seasons of 2016/2017 and 2017/2018.

Average price of 1 tonne of crop, eliminating sales costs, EUR	2017/2018	2016/2017	Comparison 2017/2018 with 2016/2017, %
Wheat	259	254	2%
Legumes	371	374	-1%
Other cash crops	221	236	-6%

As can be seen from the data above, the price of 1 tonne of wheat in the season of 2017/2018 was 2% higher compared to the season of 2016/2017, while legumes - 1% lower, other cash crops - 6% lower. This indicates that the prices of the respective organic grains are very stable and that the Group can sell the harvested production in the international markets for organic raw materials at the prices which reflect the "price premium" of organic produce. It should be noted, that other cash crops average price is very dependent on the actual mix of cultivated crops, as it includes such high yield, but lower price per 1 tonne of crop as sugar beets, so it vary more between seasons. In addition, due to the fact that recently acquired AUGA Raseiniai, UAB was still in organic farming transitional period around 23% of 2017/2018 season harvest was priced at transitional period production prices which are lower 10-30% than fully organic production prices.

(All amounts are in EUR thousand, unless stated otherwise)

The total production cost of cash crops was EUR 25.07 million in the season of 2017/2018 compared to EUR 16.40 million in the season of 2016/2017. The main reason for increase in total production cost of cash crops was increased cultivated cash crop area. In addition, when evaluating the results of the harvest in 2017/2018 season based on production cost, it is necessary to consider the fact that this year's harvest was negatively impacted by the one-off costs incurred due to cultivating abandoned lands in 2017, which were taken over from the bankrupt companies of KTG group in Lithuania. In 2016/2017 most of the overtaken lands were managed to restore their quality and fertility, therefore most of them were not sown and left to fallow (about 6 thousand ha). For this reason in the season of 2016/2017 the costs associated with the management of these lands were accumulated and left for the season of 2017/2018, when the crops were harvested for the first time by the group from these fields. Such costs amounted to about EUR 3.0 million and are reflected in the results of the harvest of 2017/2018. Eliminating these one-off costs which are related to processes and works that are not typical of the ordinary crop rotation cycle of organic farming, allows to ensure better comparability of the production cost of the harvest between 2017/2018 and 2016/2017 seasons.

The comparison of the production cost per hectare of land for the seasons of 2016/2017 and 2017/2018 is presented in the table below.

Cost per 1 ha cultivated land, EUR	2017/2018*	2017/2018**	2016/2017	Comparison 2017/2018** with 2016/2017, %
Wheat	881	811	762	6%
Legumes	790	671	759	-12%
Other cash crops	986	886	1019	-13%

* Costs per 1 ha of cultivated land without eliminating one-off costs related to the proper preparation of abandoned land overtaken in the season of 2016/2017;

** Costs per 1 ha of cultivated land eliminating one-off costs related to the proper preparation of abandoned land overtaken in the season of 2016/2017.

As can be seen from the data presented the costs per 1 ha of cultivated land after eliminating one-off costs remained at very similar level comparing to last year. The increase in wheat costs was mainly due to higher seed prices, related to the lack of seeds in the market in the spring of 2018, as well as rising fuel costs due to higher fuel prices. Despite the significant increase in cultivated land, very complicated autumn in 2017 due to rainy weather and challenging spring 2018 sowing due to double sown areas, the Group has managed to control direct costs associated with the cash crops. It should be noted, that other cash crops cost per 1 ha of cultivated land are very dependent on the mix of cultivated crops, as it includes such high cost crops like sugar beets, so it might vary more between seasons.

The challenges and adverse factors discussed above have led to a negative 2017/2018 season crop growing segment outcome in the twelve months of 2018. In total EUR 2.91 million loss on revaluation of agricultural produce at the point of harvest was recognised for twelve months of 2018. In comparison, there was EUR 5.07 million gain on revaluation of agricultural produce at the point of harvest for twelve months of 2017. Comparison of the gain (loss) on revaluation of agricultural produce at point of harvest between different cash crops and seasons is provided in the table below.

Gain (loss) on revaluation of agricultural produce at point of harvest, EUR/ha	2017/2018*	2017/2018**	2016/2017
Wheat	-149	-78	281
Legumes	-268	-150	476
Other cash crops	142	243	156

* Gain (loss) on revaluation of agricultural produce at point of harvest per 1 ha of cultivated land without eliminating one-off costs related to the proper preparation of abandoned land overtaken in the season of 2016/2017;

** Gain (loss) on revaluation of agricultural produce at point of harvest per 1 ha of cultivated land eliminating one-off costs related to the proper preparation of abandoned land overtaken in the season of 2016/2017.

As it can be seen from the table above the highest loss on revaluation of agricultural produce at point of harvest per 1 ha of cultivated land in the season of 2017/2018 was on legumes. Loss was also recorded on wheat, while other cash crops were profitable. It could be noted that in 2016/2017 season legumes were the most profitable cash crop.

Forage crop harvest results in the season of 2017/2018

Evaluating harvest results of forage crops it should be noted that the fair value of forage crop at its point of harvest is measured at production cost incurred on forage crop. In other words, forage crop production cost is used as a measure of the fair value of that forage crop since there is no active market for forage crops and there is no reliable data to calculate market price of the forage crops. Due to this the net result on revaluation of forage crops at the point of harvest is equal to zero.

The total production cost of forage crops was EUR 5.79 million in the season of 2017/2018 compared to EUR 4.74 million in the season of 2016/2017. The increase in production cost directly relates to increased area of forage crops form 8.2 thousand ha to 9.0 thousand ha. After elimination of one-off costs related to the proper preparation of abandoned land (discussed above), average cost per 1 ha of cultivated land of forage crop was 621 EUR/ha in the season of 2017/2018 or 8% higher than in the season of 2016/2017 when it was 577 EUR/ha.

(All amounts are in EUR thousand, unless stated otherwise)

Cost per 1 ha cultivated land, EUR	2017/2018*	2017/2018**	2016/2017	Comparison 2017/2018** with 2016/2017, %
Forage crops	643	621	577	8%

^{*} Costs per 1 ha of cultivated land without eliminating one-off costs related to the proper preparation of abandoned land overtaken in the season of 2016/2017;

Draught in 2018 summer negatively impacted forage crops yields. Average forage crops yield was 4.9 tonne/ha in 2017/2018 season while 6.1 tonne/ha were harvested the season earlier.

Agricultural subsidies and gross profit of the crop growing segment

The total amount of agricultural subsidies was EUR 9.16 million in the year 2018 compared to EUR 8.16 million prior year. The amount of direct subsidies increased from EUR 4.54 million in the year 2017 to EUR 5.75 million in the year 2018 due to expansion of Group's cultivated land area. However, the expansion of Group's cultivated land area had no effect on the amount of organic subsidies since this expansion is related to the acquisition of former Raseinių agra, UAB (now AUGA Raseiniai, UAB) in the year 2018. Despite transferring to organic farming AUGA Raseiniai, UAB did not receive organic farming subsidies in the year 2018 as all resources of Lithuanian agricultural policy for 2014-2020 branch "Organic agriculture" were already allocated earlier. On the other hand, organic farming programs in which part of former KTG group cultivated lands participated and received organic farming subsidies in previous years were ended in 2018 according to schedule of these programs. This resulted in a decrease in the total amount of organic subsidies received by the Group in year 2018 compared to year 2017. Total amount of organic farming subsidies was EUR 3.41 million in year 2018 compared to EUR 3.62 million year earlier. Crop rotation and mix of crops that were grown by the Group had minor effect on fluctuations in the total amount of organic subsidies received.

Gross profit of crop growing segment including result of sales of agricultural produce, gain (loss) on revaluation of agricultural produce at point of harvest and agricultural subsidies, amounted to EUR 4.37 million in the year 2018 compared to EUR 13.36 million the year earlier.

Preparation for the season of 2018/2019

It is important to note that the fall of 2018 was very favourable for autumn sowing and other preparatory land works for the season of 2018/2019. During the autumn of 2018 the Group had sowed 15,5 thousand ha of winter crops, which represent more than half (53%) of the total planted grain crops area in the season of 2018/2019. For comparison, in the season of 2017/2018, due to bad weather in the autumn of 2017, the Group harvested winter crops from only 5,5 thousand ha (winter crops amounted to only about 20% of the total cash crops area). In the season of 2016/2017, winter crops comprised about 44% of total area of cash crops. Winter crops generally have higher yield potential compared to summer crops. For instance, according to the Group's harvest data, in the season of 2017/2018 winter wheat yields were 27% higher compared to summer wheat.

In addition, favourable 2018 autumn weather also allowed for proper cultivation of the land and preparation for summer crop sowing in the spring 2019. In the case of organic farming, land works require more time and resources, and their proper preparation has a very significant effect on yield.

At the beginning of 2019 the Group signed 3 years agreement with Nordic Sugar Kedainiai, AB for growing and selling organic sugar beets. As a result it is planned to double growing area of sugar beet from 800 ha last year to 1500 ha. Sugar beets were one of the most profitable crops in 2017/2018 season.

^{**} Costs per 1 ha of cultivated land eliminating one-off costs related to the proper preparation of abandoned land overtaken in the season of 2016/2017.

(All amounts are in EUR thousand, unless stated otherwise)

Mushroom segment overview

The revenue of the mushroom growing segment was EUR 26.46 million for twelve months of 2018, around EUR 2 million or 8% higher compared to the twelve months of 2017 when revenue was EUR 24.43 million. Revenue from mushroom sales increased by EUR 2.33 million while revenue from mushroom seedbed sales decreased by EUR 0.31 million.

Mushroom sales revenue increase relates to both – increased sales volume and average sales price. 12.15 thousand tonnes of mushrooms were sold in the year 2018 compared to 12.02 thousand tonnes the year earlier. The average price of 1 tonne of mushrooms sold was 1,966 EUR/tonne in the twelve months of 2018 (1,792 EUR/tonne in the twelve months of 2017). Average prices increased both of organic and non-organic mushrooms.

In the twelve months of 2018, the share of organic mushrooms was about 7.2% of total volume of mushrooms sold comparing to 5.4% reached in 2017. Organic mushrooms revenue share in total mushrooms sales was even larger and reached 10.8% in 2018 (8.9% in 2017). The increasing share of organic produce in the mushroom segment not only reflects the strategic goals of the Group, but also improves the results of the overall profit of the mushroom growing segment, since the average price of organic produce was about 50% higher, but costs are very similar to that of conventional products, because the organic compost is prepared from raw material of the by-products of other segments such as cow manure, straw, etc.

The total cost of sales of the mushroom growing segment was EUR 24.73 million in 2018 and was EUR 1.23 million higher compared to 2017 when it was EUR 23.50 million. The average cost of 1 tonne of mushrooms sold increased from 1,727 EUR/tonne in 2017 to 1,838 EUR/tonne in 2018. While cost of mushroom seedbed decreased in the twelve months of 2018 compared to the same period of 2017.

Significant revenue increase resulted in higher gross profit of mushroom growing segment: EUR 1.73 million in the twelve months of 2018 versus EUR 0.93 million in the twelve months of 2017.

Dairy segment overview

Dairy segment sales revenue for the twelve months of 2018 amounted to EUR 8.95 million and was around the same level as during the twelve months of 2017 when it was EUR 9.01 million. Total amount of milk sold slightly decreased from 23.1 thousand tons in 2017 to 22.6 thousand tons in 2018. Average price of milk sold was around 359 euros per tonne that was 1% higher comparing to the same period last year.

Share of organic milk sales volume increased to 46% comparing to 14% in the same period of 2017, however, lower market prices for non-organic milk led to an average sale price of milk sold at almost similar level as in 2017. The share of organic milk sales by volume fluctuated between 30-40% in the first three quarters of 2018, picking up in September and during the fourth quarter averaging around 74%. As it can be seen from the graph provided below fluctuations in the share of milk sold at organic prices remain significant since the sales are still dependent on several important clients and their business needs in particular month. Share of milk sold at organic prices has important effect on average milk price sold as organic price premium is around 30%.

Dairy segment cost of sales increased significantly and totalled to EUR 10.26 million during twelve months of 2018 compared to EUR 8.41 million during the same period last year. The deterioration of the dairy segment cost of sales was mainly driven by an increase in cost of feed.

The cost of feed increased due to the following main reasons: (a) due to unfavourable weather conditions preparation of grass feed was complicated and yields were low both in the season of 2016/2017 and 2017/2018. The quality of the collected grass feeds was also relatively poor. All this has led to an increase in the cost of grass feed. (b) organic grains used for cattle feed during 2018 were harvested in 2017 and evaluated at the higher organic prices, reflecting their market value.

(All amounts are in EUR thousand, unless stated otherwise)

The rise in cost of feed resulted in both higher milk production costs and cattle growing costs. Higher cattle growing costs had direct impact on increased loss from revaluation of biological assets (animal herd) due to increased loss from sales of cattle meat. The Group does not grow beef cattle, but because of the natural change in the cattle herd, aged and unproductive dairy cattle are sold for meat. The market price of such cattle meat is relatively low and does not compensate the value of the cattle, used for accounting purposes.

Gross loss of diary segment was EUR 2.42 million for twelve months period ended 31 December 2018 (gross profit of EUR 0.59 million was reported for twelve months period ended 31 December 2017).

End-consumer packaged goods segment

Total revenues of end-consumer packaged goods segment amounted to EUR 1.86 million during the twelve months of 2018 and was 1.8 times higher than during the same period of 2017 when it was EUR 1.05 million. Steady increase in end-consumer packaged goods indicates good potential for this segment development. Segment is of strategic importance for the Group due to diversification of current business lines as well as higher value added to existing products. This segment covers ready-to-eat soups, packaged vegetables, bottled milk and milk-shakes and other products.

Distribution of end-consumer products with *AUGA* brand in the domestic Baltics market was increased significantly in local retail chains during last 6 months. This gives solid base for further sales increase in 2019 in the Baltics. Further progress was achieved in the export markets. Contracts are finalized and sales are expected to start int the near future to such markets as the Unites States of America, South Korea, the United Arab Emirates, Romania, Ukraine.

Cost of sales was rising a well, because most of the products in this segment are still selling on comparably low scale what results in high cost of sales and low margins at the moment. Cost of sales was EUR 1.79 million for the twelve months of 2018 compared to EUR 1.00 million for the same period in 2017.

High cost of sales resulted in EUR 0.07 million gross profit of end-consumer packaged goods segment during the twelve months of 2018. Gross profit of EUR 0.05 million reported for the same period in 2017.

Operating expenses

The Group's operating expenses for the twelve months of 2018 were significantly influenced by two one-off effects recorded in the first quarter of 2018: (a) the reversal of impairment loss of the assets of Karakash Agro OOO and Karakash OOO due to the signed agreement to sell the respective subsidiaries in the first quarter of 2018 (effect of EUR 1.8 million); (b) accrued expenses related to the termination of the acquisition of shares of UAB Arginta Engineering in the first quarter of 2018 (effect of EUR 0.7 million). After eliminating one-off effects, the Group's operating expenses for the twelve months of 2018 amounted to EUR 9.96 million comparing to EUR 8.59 million for the same period in 2017. Payroll and social security expenses increased by EUR 0.2 million due to increase in average salaries as well as number of personnel. Depreciation and amortisation costs, included in OPEX, increased by EUR 0.36 million in twelve months of 2018 compared to the same period in 2017 mainly due to amortisation costs of long-term land-rent contracts intangible asset which was accounted after acquisition of AUGA Raseiniai, UAB. In addition, EUR 0.2 million of accounts receivable impairment was accounted in application of new 9th International Financial Reporting Standard "Financial instruments" requirements during the twelve months of 2018.

(All amounts are in EUR thousand, unless stated otherwise)

IV. EXPLANATORY NOTES

1. Basis of the preparation

The accompanying interim financial information for the period ended 31 December 2018, has been prepared in accordance with IAS 34, 'Interim financial reporting'. The accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2017, as described in those annual financial statements. This financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2017, which have been prepared in accordance with IFRS as adopted by the EU.

The presentation currency is euro (EUR). The financial statements are presented in thousands of euro, unless indicated otherwise. Financial statements for the 12 months period ended 31 December 2018 are not audited. Financial statements for the year ended 31 December 2017 are audited by the external auditor UAB PriceWaterhouseCoopers.

The preparation of financial information in conformity with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial information, are disclosed below.

Business combinations

On 26 February 2018 AUGA group, AB has completed the purchase of 100% share of UAB Raseinių agra (now – UAB AUGA Raseiniai) for EUR 2.4 million. Share sale and purchase agreement was signed on 10 November 2017, as per released notification on material event. UAB Raseinių agra was established in October 2017 as a result of spin-off procedure from UAB Agra Corporation, shareholders of which decided to withdraw from agricultural business and to focus in the area of investment property management. UAB Raseinių agra managed around 5,200 ha of agricultural land. The preliminary fair value estimation of UAB Raseinių agra as at the date of acquisition is as follows:

	Raseinių agra UAB
	Fair value as at 26 February 2018
Non-current assets	
Land-rent contracts	2,120
PPE	2,932
Current assets	
Inventory	834
Trade receivables and other current assets	337
Cash and cash equivalents	231
Long term liabilities	
Financial liabilities	(2,046)
Borrowings from AGRA companies	(1,273)
Deferred tax liability	(20)
Short term liabilities	(4.07)
Other financial liabilities	(107)
Trade payables and other current liabilities	(573)
Net assets at acquisition date	2,435
Acquired share capital, %	100.0
Total value of the acquired investment	2,435
Cash paid for shares at the time of the purchase	2,435
Total purchase consideration	2,435
Goodwill	-

The purchase price allocation of the acquired net assets will be finalized till the end of 2018.

The Group has acquired UAB Raseinių agra to expand its agricultural land area and increase efficiency of human and technical resources. The companies under acquisition are located next to Group's cultivation areas in the Raseiniai region.

AUGA GROUP, AB Konstitucijos av. 21C, Quadrum North, LT-08130, Vilnius, Lithuania

CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(All amounts are in EUR thousand, unless stated otherwise)

Business combinations (continued)

Outflow of cash to acquire UAB Raseinių agra, net of cash acquired:

Purchase consideration settled in cash
Less: cash and cash equivalents acquired

Net cash outflow on acquisition

2,204

The fair value of acquired trade receivables is EUR 337 thousand. The gross contractual amount for trade receivables is EUR 337 thousand, of which none is expected to be uncollectible.

The acquired UAB Raseinių agra did not contribute any revenue or profit (loss) to the Group till 26 February 2018.

If the acquisition of UAB Raseinių agra had occurred on 1 January 2018, the Group's Revenue of 2018 would have been larger by EUR 29 thousand; net profit lower by EUR 169 thousand.

On 9 February 2018 the Group has signed a contract to sell two subsidiaries - Karakash OOO and Karakash Agro OOO which were operating in Crimea. The sale was finalized in 10 May 2018 and the gain on the transaction was accounted in other income. The result in the table is the preliminary impact based on the current assessment of timing and amount of payment. The details of the result of the Group's subsidiaries disposal is as follows:

Disposal of subsidiaries	Karakash Agro 000
·	Carrying value of the investment
Assets classified as held for sale Property plant and equipment (after reversal of impairment) Biological assets	2,742 737
Inventory Trade receivables and other current assets Cash and cash equivalents Liabilities directly associated with assets classified as held for sale	144 683 5
Trade payables and other current liabilities Net assets at disposal date	(1,416) 2,895
Sold share capital, %	100.00
Paid in cash	500
Deferred consideration	2,568
Total sales consideration	3,068
Expenses incurred due to disposal of subsidiaries	11
Total gain on transaction	162

2. Share capital

The share capital of AUGA group, AB as at 31 December 2018 was EUR 65,950,713.08 (54,350,713.08 as at 31 December 2017). The share capital was divided into 227,416,252 ordinary shares (187,416,252 ordinary shares as at 31 December 2017). Each issued share has a EUR 0.29 nominal value and fully paid. Each share had usual material and proprietary and non-proprietary rights as per Law on Companies of the Republic of Lithuania and the Company's Articles of Association.

(All amounts are in EUR thousand, unless stated otherwise)

Shareholders

Total number of shareholders on 31 December 2018 was 1,149 (one thousand one hundred forty-nine), and on 31 December 2017 it was 915 (nine hundred fifteen). The shareholders owning more than 5% of shares in the Company are the following:

7. Receivables and advance payments

As at the balance sheet date Group's receivables and advance payments consisted of the following:

	As at 31 December 2018	As at 31 December 2017 (audited)
Total trade accounts receivable	7,757	5,867
VAT receivable	525	402
Receivables from National Paying Agency	4,442	558
Accounts receivable from private individuals	69	34
Other receivables	92	48
Advance payments and deferred expenses	3,735	3,935
Less: allowance for doubtful financial assets	(279)	(79)
Total trade accounts receivable, net	16,341	10,765
Non-current receivables, gross	6,266	3,497
Total	22,607	14,341

Receivables from the National Paying Agency are the direct subsidies receivable for crops and milk, which are due by 30 April of the following year.

(All amounts are in EUR thousand, unless stated otherwise)

8. Financial liabilities

The Group's long-term borrowings consisted of the following:

	As at 31 December 2018	As at 31 December 2017 (audited)
Borrowings from banks		
Mushroom growing companies	3,949	5,927
Agricultural entities	11,155	10,841
Agricultural cooperatives	297	600
Long-term payment to 3 rd parties		
Long-term payable to the State	1,401	1,535
Long-term payable to creditors	5,290	1,041
Long-term payable to the investment fund for purchased land	1,059	1,097
Total	23,151	21,041
Less: amounts, payable within one year (according to agreements)	(9,306)	(4,506)
Total long-term borrowings	13,845	16,535

The Group owes payable amount to the State of EUR 1,401 thousand for land acquisition made by Group in 2008 - 2014. The payable amount to State is over 15-year period.

Due to significant deterioration in Group's financial results in the second half of 2018 credit and credit line agreements with main lenders of the Group (Luminor bank AS and Swedbank, AB) were amended. It was agreed not to apply the Financial Debt² to EBITDA³ ratio covenant until the end of the third quarter of 2019 and to extend credit lines for a year. Since the Financial Debt to EBITDA ratio covenant was not applied for year end of 2018, the Group met all the financial covenants set by the creditors as at 31 December 2018.

The long-term borrowings and payables are repayable as follows:

	As at 31 December 2018	As at 31 December 2017
Borrowings from banks		
Within second year	10,856	5,905
Within third and fourth year	1,968	9,503
After fifth year and later	1,021	1,127
Total	13,845	16,535

The Group's short-term borrowings were the following:

	As at 31 December 2018	As at 31 December 2017 (audited)
Borrowings from banks		
Mushroom growing companies	2,400	2,400
Agricultural entities	-	997
Parent company	18,870	3,210
Grain selling entity	<u></u>	7,000
Total short-term borrowings	21,270	13,607

Short-term loans from banks include EUR 21,270 thousand (in 2017: EUR 13,607 thousand) credit-line facilities.

Consolidated interim financial statements for 12 months period ended 31 December 2018 (unaudited)

² Financial debt = long-term financial liabilities + short-term financial liabilities.

³ EBITDA = net cash flow from operating activities before changes in working capital, as it is disclosed in cash flow statement, including gain (loss) on changes in fair value of biological assets.

(All amounts are in EUR thousand, unless stated otherwise)

9. Results of business segments

MUSHROOM SEGMENT	12-month period ended 31 December 2018	12-month period ended 31 December 2017
